BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

NEW SECTION. Section 1. Chemical dependency treatment voucher program -- eligibility -- provider and participant requirements. (1) Subject to available funding, the department shall establish a voucher program to support chemical dependency treatment for individuals who would otherwise be unable to access the treatment in a timely manner because of financial barriers.

(2) An approved private or public treatment program that has applied for and been selected to participate in the voucher program may submit vouchers for reimbursement of chemical dependency treatment and related services provided to an individual who lacks insurance coverage or other means of paying for the services at the time they are provided. The individual receiving voucher-eligible services must:

- because:
- (i) the individual's third-party payment source will not cover the full cost of treatment;
 - (ii) the individual has applied for but not yet been approved to receive medical assistance through the medicaid program or healthy Montana kids plan; or

1 (iii) the individual does not qualify for medical assistance and has no alternative third-party
2 payment source.

3 (3) (a) The voucher program may be used to cover the costs of:

4 (i) screening and assessment;

5 (ii) individual, group, and family therapy;

6 (iii) room, board, and transportation;

7 (iv) recovery coaching;

8 (v) drug screens;

9 (vi) medication-assisted treatment; and

10 (vii) services that support a person's participation in treatment activities, including but not limited to
11 child care or other family support services.

12 (b) Treatment services reimbursed under the voucher program must be evidence-based and meet
13 criteria for levels of care recognized by the American society of addiction medicine.

14 (4) An approved treatment program may apply to participate in the voucher program. If approved,
15 the program remains eligible to participate for the full budget biennium during which approval was received
16 unless the department terminates the program's participation for cause.

17 (5) A participating treatment program:

18 (a) may submit vouchers for payment of services provided to a qualifying individual as soon as
19 costs are incurred if other payment sources are not immediately available;

20 (b) shall assist individuals receiving voucher-reimbursed treatment services with applying for an
21 appropriate medical assistance program;

22 (c) shall report any change in an individual's income or insurance status that makes the individual
23 ineligible for further voucher payments;

24 (d) shall collect and report outcome measures as required by the department by rule; and

25 (e) shall keep records as required by the department to substantiate the treatment provided.

26 (6) If an approved treatment program is reimbursed through the voucher program for services
27 provided to an individual who is later determined to be eligible for medicaid or the healthy Montana kids plan,
28 the provider:

1 (a) shall accept medicaid or healthy Montana kids plan reimbursement as payment in full for
2 services covered by those programs and remit to the department any voucher payments received for the
3 services; and

4 (b) may submit vouchers for services provided to the individual when the services are allowed
