

HOW WE WORK.

The Montana Lottery is an enterprise fund and 100% proprietary. This means our operations are financed and operated in a manner similar to private enterprise, where the intent is to provide goods or services to the general public. The Lottery receives no funding from the State of Montana, but generates money for the State General Fund and to support scholarships for Montana high school graduates pursuing STEM degrees at Montana colleges or universities.

While we run like a business, the Montana Lottery is a state agency governed by a five-member board that is appointed by the Governor. We are attached to the Department of Administration for administrative purposes.

The Lottery is comprised of 38 FTEs with five distinct departments: Administration, Financial Services, Information Technology, Marketing, Sales, Graphics and Communications and Security and Warehouse.

MONTANA WINS.

By law, the Montana Lottery must pay out at least 45 percent of our revenue as prizes to our players.

But we always do better than that!

We were created to make winning experiences and to benefit the common good – and we couldn't do it without our players!

Winners happen!

IT COULD BE YOU
