RE: Hospital Bad Debt and Charity Care Updated Data for SJR23 Study

DATE: February 6, 2012

This memorandum is in response to the request for charity care and bad debt data for Montana hospitals to inform the Senate Joint Resolution No. 23 (SJR23) study. The request was for total billings, charity care, and bad debt sorted by county and by location of serve - the hospital or physician clinics. The data provided is not uniform due to accounting system limitations, computer conversions, or lack of response to the request for data. The following table summarizes which data is available for each hospital. The hospitals that are not marked with an "x" in either the "Hospital" or "Physician" column did not provide detail on whether the bad debt and charity care figures include services provided in both the hospital and physicians' offices.

Hospital	Total Charges	Hospital ¹	Physician	Bad Debt	Charity Care	2009	2010
Benefis ²					X	X	X
Billings Clinic	X	X	X	X	X	X	X
Bozeman Deaconess				X	X	X	X
Kalispell Regional	X	X		X	X	X	X
St. James ³				X	X		X
St. Patrick		X		X	X	X	X
St. Peter's	X	X	X	X	X	X	X
St. Vincent	X	X		X	X	X	X

¹Kalispell Regional and St. Vincent can only provide detailed data for hospital services because physician clinics use a different accounting software.

²Benefis converted to a new computer system and cannot provide bad debt data.

³St. James converted to a new computer system and can no longer access 2009 data for reporting purposes.

Beginning on page 3 are tables for each hospital for the years 2009 and 2010 that summarize bad debt write offs and the provision of charity care by Montana county. Total billings and location of service are also included, if available. The following analysis summarizes some of the information provided in the tables and compares the hospitals.

Bad Debt and Charity Care Compared with Total Billings

For the four hospitals that provided data on total charges in Montana, the statewide bad debt and charity care account for about 7 percent to 8 percent of total charges with two exceptions. The following table summarizes the charity care and bad debt, separately and combined, as a percent of total Montana charges.

Hospital	2009			2010		
	Bad Debt as % of Total	Charity as % of Total	Bad Debt and Charity as % of Total	Bad Debt as % of Total	Charity as % of Total	Bad Debt and Charity as % of Total
Billings Clinic	3.75%	3.41%	7.16%	3.82%	3.65%	7.47%
Kalispell Regional	4.92%	2.60%	7.52%	3.35%	2.65%	6.00%
St. Peter's	2.17%	1.56%	3.73%	4.62%	2.48%	7.10%
St. Vincent	4.49%	4.36%	8.85%	3.34%	4.97%	8.31%

The amount of bad debt and charity care as a percentage of total charges by county vary significantly. For some counties, the bad debt and charity care figures are greater than 100 percent. This is because bad debt and charity care figures are for the year the debt was written off or the charity care was granted; the health service may have been provided in a different year.

Location of Bad Debt and Charity Care

Only two hospitals provided data on bad debt and charity care sorted by location of service: the hospital or physicians' offices. For these two hospitals, the services written off as bad debt or covered under the hospital's charity care policy were more often provided in the hospital setting than in physicians' offices.

	Bad Debt		Charity	
	Hospital as % of Total	Physician as % of Total	Hospital as % of Total	Physician as % of Total
Billings Clinic				
2009	79.2%	20.8%	79.8%	20.3%
2010	80.9%	19.1%	79.4%	20.6%
St. Peter's				
2009	90.8%	9.2%	95.0%	5.0%
2010	88.8%	11.3%	92.6%	7.4%

The following pages summarize the available data by hospital.
