Montana Code Annotated Extracts

April 9, 2014

Public Employees' Retirement System

19-3-315. Member's contribution to be deducted. (1) (a) Except as provided in subsection (2), each member's contribution is 7.9% of the member's compensation.

(b) The board shall annually review the required contributions and recommend future adjustments to the legislature as needed to maintain the amortization schedule set by the board for the payment of the system's unfunded liability.

(2) Each member's contribution must be reduced to 6.9% on January 1 following the system's annual actuarial valuation if the valuation determines that reducing the employee contribution pursuant to this subsection and reducing the employer contribution pursuant to 19-3-316(4) would not cause the system's amortization period to exceed 25 years.

(3) Payment of salaries or wages less the contribution is full and complete discharge and acquittance of all claims and demands for the service rendered by members during the period covered by the payment, except their claims to the benefits to which they may be entitled under the provisions of this chapter.

19-3-316. Employer contribution rates. (1) Each employer shall contribute to the system. Except as provided in subsection (2), the employer shall pay as employer contributions 6.9% of the compensation paid to all of the employer's employees plus any additional contribution under subsection (3), except for those employees properly excluded from membership. Of employer contributions made under this subsection for both defined benefit plan and defined contribution plan members, a portion must be allocated for educational programs as provided in 19-3-112. Employer contributions for members under the defined contribution plan must be allocated as provided in 19-3-2117.

(2) Local government and school district employer contributions must be the total employer contribution rate provided in subsection (1) minus the state contribution rates under 19-3-319.

(3) (a) Subject to subsection (4), each employer shall contribute to the system an additional employer contribution equal to the percentage specified in subsection (3)(b) of the compensation paid to all of the employer's employees, except for those employees properly excluded from membership.

(b) The percentage of compensation to be contributed under subsection (3)(a) is 1.27% for fiscal year 2014 and increases by 0.1% each fiscal year through fiscal year 2024. For fiscal years beginning after June 30, 2024, the percentage of compensation to be contributed under subsection (3)(a) is 2.27%.

(4) (a) The board shall annually review the additional employer contribution provided for under subsection (3) and recommend adjustments to the legislature as needed to maintain the amortization schedule set by the board for payment of the system's unfunded liabilities.

(b) The employer contribution required under subsection (3) terminates on January 1 following the board's receipt of the system's actuarial valuation if the actuarial valuation determines that terminating the additional employer contribution pursuant to this subsection (4)(b) and reducing the employee contribution pursuant to 19-3-315(2) would not cause the amortization period to exceed 25 years.

19-3-319. State contributions for local government and school district employers. (1)

The state shall contribute monthly from the general fund to the pension trust fund a sum equal to 0.1% of the compensation paid to all employees of local government entities and school districts on and after July 1, 1997, except those employees properly excluded from membership.

(2) (a) Subject to subsection (2)(b), in addition to the contribution required under subsection (1), the state shall contribute monthly from the general fund to the pension trust fund a sum equal to 0.27% of the compensation paid to all employees of school districts except for those employees properly excluded from membership.

(b) The additional contribution under subsection (2)(a) terminates when the additional contribution under 19-3-316(3) terminates.

(3) The board shall certify amounts due under this section on a monthly basis, and the state treasurer shall transfer those amounts to the pension trust fund within 1 week. The payments in this section are statutorily appropriated as provided in 17-7-502.

19-3-1605. Guaranteed annual benefit adjustment. (1) Subject to subsection (2), on January 1 of each year, the permanent monthly benefit payable during the preceding January to each recipient who is eligible under subsection (3) must be increased by the applicable percentage provided in subsection (4).

(2) (a) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the adjustments amount to less than an annualized increase of the applicable percentage provided in subsection (4), then the recipient's benefit must be adjusted by an amount that will provide a total annualized increase of the applicable percentage in the benefit paid since the preceding January.

(b) If a recipient's benefit payable during the preceding January has been increased by one or more adjustments not provided for in this section and the increases amount to more than an annualized increase of the applicable percentage provided in subsection (4), then the benefit increase provided under this section must be 0%.

(c) If a benefit recipient is a contingent annuitant receiving an optional benefit upon the death of the original payee that occurred since the preceding January, the new recipient's monthly benefit must be increased to the applicable percentage provided in subsection (4)(b) more than the amount that the contingent annuitant would have received had the contingent annuitant received a benefit during the preceding January.

(3) Except as provided in subsection (2)(b), a benefit recipient is eligible for and must receive the minimum annual benefit adjustment provided for in this section if the benefit's commencement date is at least 12 months prior to January 1 of the year in which the adjustment is to be made.

(4) (a) Subject to subsection (5), the applicable percentage rate is 1.5% for benefit recipients hired or assuming office:

(i) before July 1, 2007;

(ii) on or after July 1, 2007, and prior to July 1, 2013, if the benefit recipient is an existing member of a benefit plan for which the applicable percentage before July 1, 2013, was either 3% or 1.5%; or

(iii) on or after July 1, 2013.

(b) The applicable percentage rate for a contingent annuitant described in subsection (2)(c) is the same as the applicable percentage rate applicable to the original payee under subsection (4)(a).

(5) (a) Except as provided in subsection (5)(b), if the most recent actuarial valuation of the retirement system shows that retirement system liabilities are less than 90% funded, the applicable percentage rate in subsection (4) must be reduced by 0.1% for each 2% below that 90% funding level.

(b) If the amortization period is 40 years or greater, the applicable percentage rate is 0% and the retirement allowance may not be increased.

(6) The board shall adopt rules to administer the provisions of this section.
