**** Bill No. ****

Introduced By *****

By Request of the *****

REVISED DRAFT FOR DISCUSSION PURPOSES ONLY (JULY VERSION)

A Bill for an Act entitled: "An Act relating to electricity supply resource contract lengths; requiring the public service commission to require long-term contracts for the purchase of electricity by a utility from a qualifying small power production facility; prohibiting the public service commission from imposing cost recovery constraints on other resources; amending sections 69-3-601, 69-3-602, and 69-3-604, MCA; and providing an immediate effective date."

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 69-3-601, MCA, is amended to read:

"69-3-601. (Temporary) Definitions. As used in this part, the following definitions apply:

(1) "Commission" means the Montana public service commission.

(2) "Electric cooperative" means a rural electric cooperative organized under the laws of Montana, or a foreign corporation admitted to do business in Montana.

(3) "Long-term contract" means a contract lasting 25 years or more.

~~(3)~~(4) "Qualifying small power production facility" means a facility that:

(a) produces electricity by the use, as a primary energy source, of biomass, waste, water, wind, or other renewable resource, or any combination of those sources; or

(b) produces electricity and useful forms of thermal energy, such as heat or steam, used for industrial, commercial, heating, or cooling purposes through the sequential use of energy known as cogeneration; and

(c) has a power production capacity that together with any other facilities located at the same site is not greater than 80 megawatts; and

(d) is owned by a person not primarily engaged in the generation or sale of electricity other than electric power from a small power production facility.

~~(4)~~(5) "Utility" means any public utility supplying electricity and regulated by the commission. (Repealed on occurrence of contingency--secs. 1, 3, Ch. 284, L. 2003--see part compiler's comment.)"

Section 2. Section 69-3-602, MCA, is amended to read:

"69-3-602. (Temporary) Generation and sale of electricity by qualifying small power production facility. (1) A qualifying small power production facility may generate electricity from the sources described in ~~69-3-601(3)(a) and (3)(b)~~ 69-3-601(4)(a) and (4)(b) and may contract for the sale of that electricity with a utility.

(2) A qualifying small power production facility may generate electricity from the sources described in ~~69-3-601(3)(a) and (3)(b)~~ 69-3-601(4)(a) and (4)(b) and may contract for the sale of that electricity with an electric cooperative under terms and conditions mutually agreed upon between the parties and in compliance with the rates and regulations established by the Public Utility Regulatory Policies Act. (Repealed on occurrence of contingency--secs. 1, 3, Ch. 284, L. 2003--see part compiler's comment.) "

{*Internal References to 69-3-602: None.*}

Section 3. Section 69-3-604, MCA, is amended to read:

"69-3-604. (Temporary) Standards for determination of rates and conditions. (1) The commission shall determine the rates and conditions of the contract for the sale of electricity by a qualifying small power production facility according to the standards in subsections (2) through (5).

(2) (a) Long-term contracts Except as provided in subsection (2)(b), the commission shall require a long-term contract for the purchase of electricity by the utility from a qualifying small power production facility ~~must be encouraged in order~~ to enhance the economic feasibility of qualifying small power production facilities.

(b) This subsection (2) does not prohibit a qualifying small power production facility and a utility from mutually agreeing to a specific contract term, or the commission from requiring a contract for a time period shorter than a long-term

contract as specified in 69-3-601, if requested by a small power production facility.

(3) The rates to be paid by a utility for electricity purchased from a qualifying small power production facility must be established with consideration of the availability and reliability of the electricity produced.

(4) The commission shall set these rates using the avoided cost over the term of the contract.

(5) The commission may adopt rules further defining the criteria for qualifying small power production facilities, their cost-effectiveness, and other standards.

(6) Rates determined pursuant to subsections (2) through (5) are:

(a) just and reasonable to a utility's customers;

(b) do not discriminate against qualifying small power production facilities; and

(c) are in the public interest.

(7) For the purposes of implementing this part, 18 CFR 292.304, or the Federal Public Utility Regulatory Policies Act, the commission may not impose cost recovery constraints or shorten depreciation schedules for other resources that are owned by or leased to a utility, or which sell energy, capacity, or other ancillary services to a utility. (Repealed on occurrence of contingency--secs. 1, 3, Ch. 284, L. 2003--see part compiler's comment.) "
