

Key Result Area	Long Term Outcome	Intermediate Outcome
Information Services	Enable the business of the Legislative Branch	Provide the capability to share nonpartisan data and information that is easily consumable by general public, legislators, and employees
		Manage the lifecycle of the Legislative Branch's information and make it accessible
		Continually improve the support model in the Office of Legislative Information Services (OLIS)
		Legislative Branch remote workers can perform their jobs as if in the building
Securing the Branch	Protect the Legislative Branch's information technology systems and data from unauthorized use, disclosure, damage, modification, or loss.	The Legislative Branch continues to develop the critical elements of its security program
		Assets in the branch are tracked and managed in an efficient and secure way
Operational Excellence	OLIS provides quality service that meets the defined needs of our customers.	Recruit, retain, and train a high performing workforce in OLIS
		The OLIS project portfolio is well defined and managed
		Collect and share information outside of the Legislative Branch network that is sometimes sensitive and large
		The printing and distribution of publications is efficient, cost effective, and able to be accurately managed
