Background Materials and Research

Topic Summary: The taxation of tobacco is provided for in [Title 16, chapter 11](#). The taxes on tobacco products include:

- \$1.70 per package of 20 cigarettes (or the equivalent per cigarette if the package is a different size);
- 50% of the wholesaler’s price of all tobacco products other than cigarettes and moist snuff; and
- 85 cents per ounce of moist snuff.

The tax is precollected and paid by the wholesaler but presumed to be a tax on the retail consumer. The wholesaler must affix to packages of cigarettes a stamp denoting the amount of the tax. Wholesalers may apply for a refund of the tax for the sale of cigarettes to a retailer within the boundaries of a Montana Indian reservation or to a member of a federally recognized Indian tribe, subject to a monthly quota based on population data.

After subtracting the amount necessary to purchase cigarette tax stamps, the revenue collected from the tax on cigarettes is deposited as follows:

- 44% in the state special revenue fund to the credit of the health and Medicaid initiatives account provided for in [53-6-1201](#);
- 8.3% or \$2 million, whichever is greater, in the state special revenue fund to the credit of the Department of Public Health and Human Services for the operation and maintenance of state veterans’ nursing homes;
- 2.6% in the long-range building program account provided for in [17-7-205](#); and
- the remainder in the state general fund.

TOBACCO TAXES

Half of the revenue from the taxes on tobacco products other than cigarettes is distributed to the state general fund and the other half is distributed to the account in the state special revenue fund for health and Medicaid initiatives provided for in [53-6-1201](#).

The current tobacco tax rates have been in effect since the passage of a 2004 initiative.
