Subject:
Medical Cannabis Program

Comment:
Chairman and Members of the Committee, Thank you for all your hard work on the Montana Recreational Cannabis program. My concern is for the patients that still use cannabis as medicine. Patients are struggling with the established purchase limits. Because of the rolling limits, people often use up their limits and are forced to buy on the recreational market. Aside from the higher prices and taxes on the recreational market, patients are not able to get the medicinal doses they often require. This is something that needs to be addressed to make the program more functional for these patients. Patients should have purchase limits in line with recreational laws, so they can access products in the therapeutic doses they require. Thank you. Elizabeth Picolini
