Park	No	
Petroleum	No	No camera's anywhere in our courthouse.
Phillips	No	
Pondera	No	
Powder River	No	
Powell	No	I have a camera on my 450 counting machine, in the room where it is stored, but not out where I count ballots.
Prairie	Yes	
Ravalli	Yes	
Richland	No	
Roosevelt	No	
Rosebud	No	
Sanders		

COUNTY	Are there cameras where you count?	Notes?
Sheridan	No	
Stillwater	No	<p>We have cameras in the hallway but they are shut down when we have voting booths set up in the hallway for voter privacy. We do not have cameras in the room we use as a counting room, as it is also used for other purposes, not just a counting room.</p> <p>I think it is important to mention that not all of the rooms we use as counting rooms are solely used for that. Not all counties have rooms dedicated solely for that purpose, I would say most don't. We are lucky to get enough storage space for our election equipment. These rooms are also used as meeting rooms, etc... I don't know if we should install cameras in those rooms as there may be privacy issues.</p>
Sweet Grass	Yes	
Teton	No	<p>We use the district court room and they do not have cameras.</p> <p>We do have cameras in the hallway of the courthouse polling site which shows our office counter.</p>
Toole	No	
Treasure		
Valley	Yes	
Wheatland	No	We do not have cameras because we count at our polling locations, and if we could put cameras there, the expense is far outside our budget.
Wibaux	No	We use the district court room and they do not have cameras. We do have cameras in the hallway of the courthouse polling site which shows our office counter.
Yellowstone	No	Our county has central courthouse cameras--they are not in the regular counting center, but there are cameras in the room used during this federal election cycle for counting.
