

# Behavioral Health in the criminal justice system

## Why Care about Mental Health in Criminal Justice?

- Safer communities
- Reduce homelessness
- Save taxpayer money
- Moral imperative

# Meet Jane

- 57 arrests since 2014 (Missoula only) with 700+ jail days (Missoula only). Recently got off probation for burglary (un-supervisable, couldn't revoke because she cannot be made fit)
- MH Diagnoses of Schizophrenia, Bi-polar and anti social personality disorder + TBI as a child.  
**Consistently unfit to proceed since 2020.**
- Significant substance abuse history
- 15 MSH admissions since 2013
  - ☐ 3 Forensic commitments
  - ☐ 12 Civil commitments
  - ☐ Average stay has been 3.5 months (over 4 years total)
- 8 Children born in the last 10 years. All taken away. Last child born while in MSH in 2022.
- Missoula Jail costs of approximately \$85,000;  
Hospital costs of approximately \$2.1 (at \$1200/day)

Why are County Attorney's  
dealing with this?:

Pre-1960's period of mass  
institutionalization

# Well-meaning Reforms, Unintended Consequences:

Mental Health Act,  
October 31, 1963: Goal  
was to build mental  
health centers accessible  
to all Americans to live  
and work close to home  
rather than live in  
inhumane institutions.

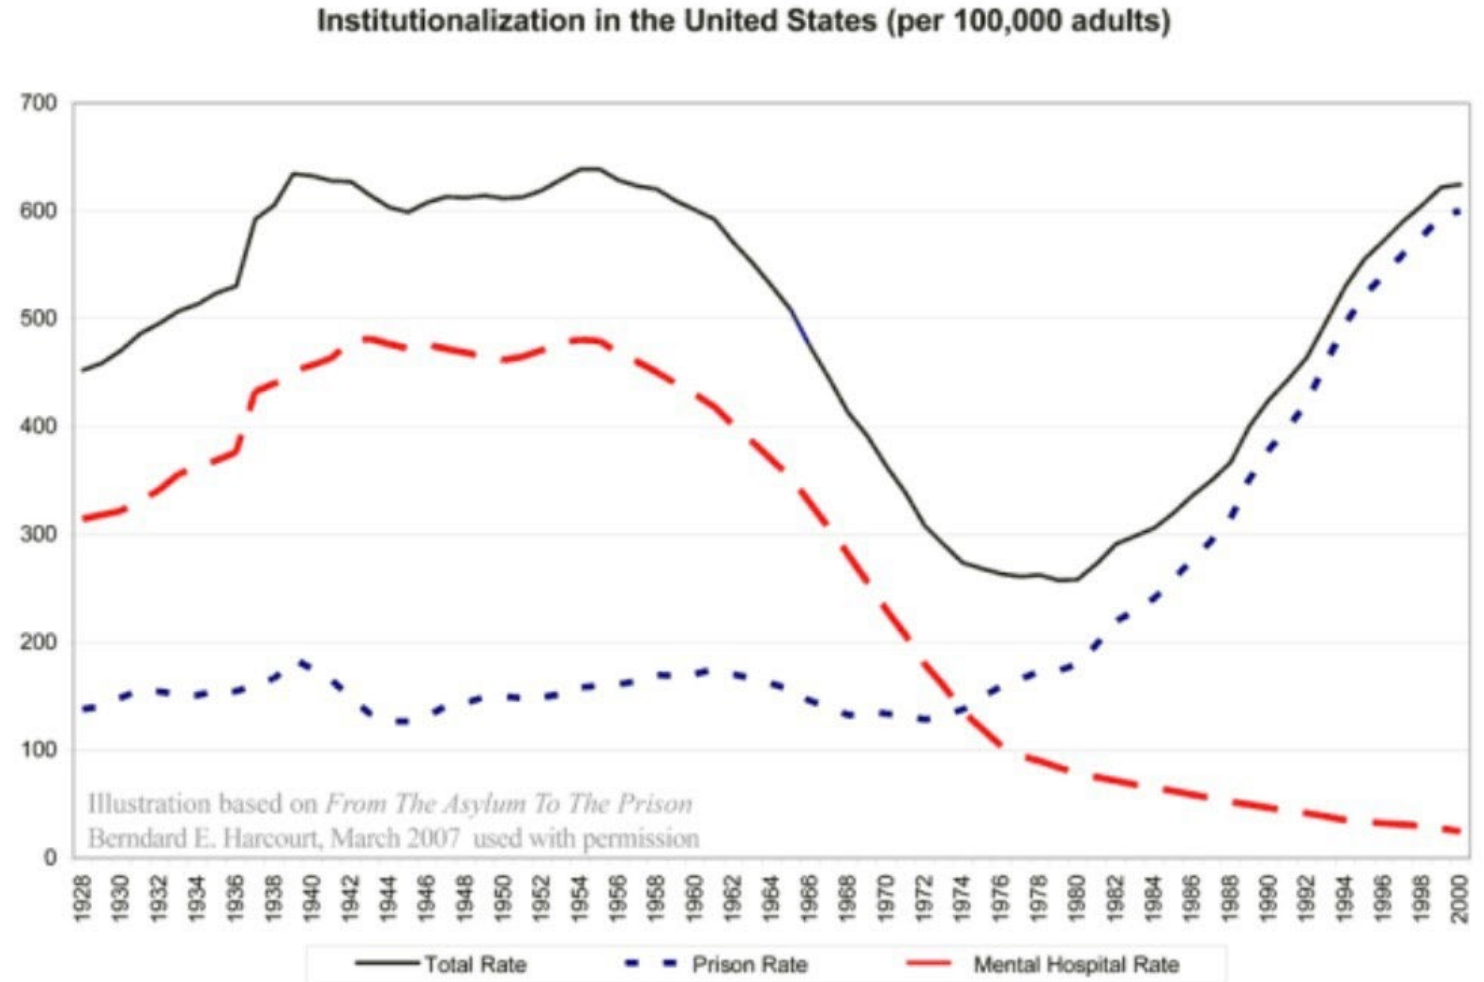

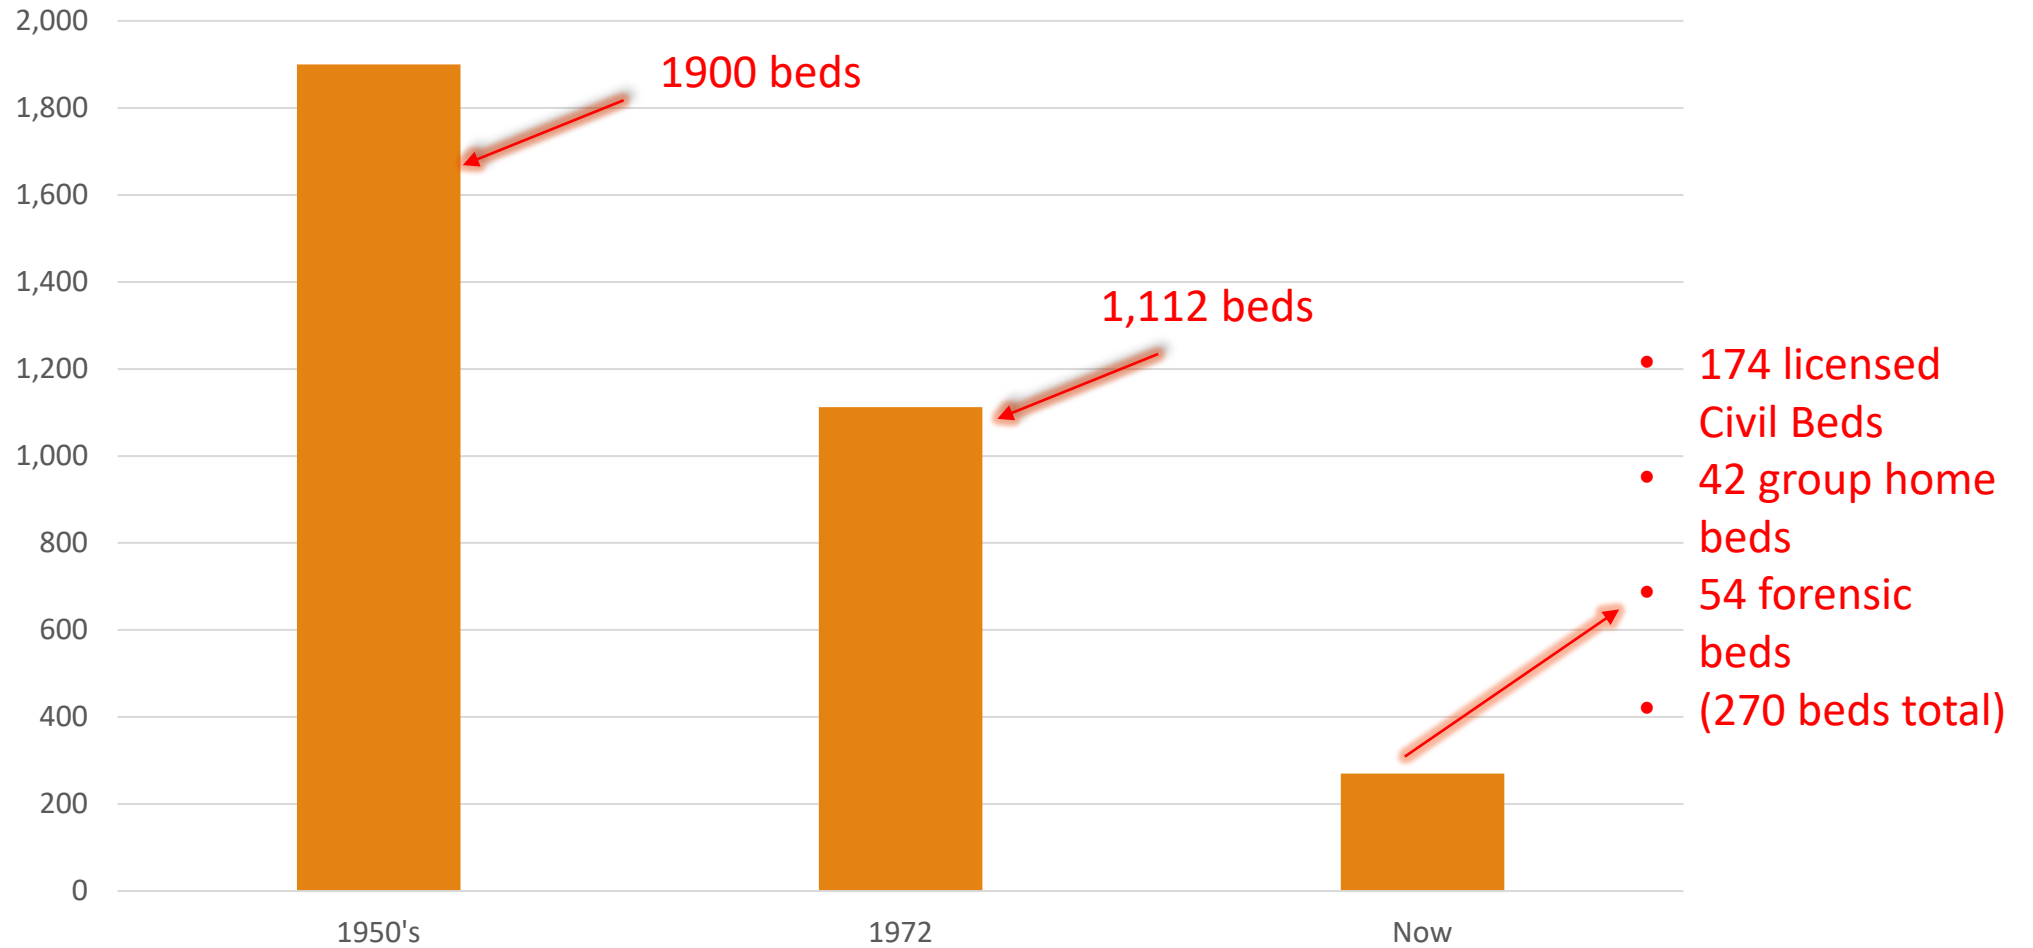

Rosemary Kennedy, 1938, Ireland during a time her father was ambassador to the U.K.

## Paradox of Meth Induced Psychosis.

- Meth induced psychosis can render you unfit, but may not qualify as a Mental Disease or Defect
- “[MDD] does not include, but may co-occur with...drug or alcohol intoxication.” MCA 46-14-101
- Up to 36.5% of meth users experience psychosis at some point.
- 10-28% of patients with Meth psychosis continued to display psychosis for more than 6 months.
- Another study showed that 28% of meth users continued to display “schizophrenia-like symptoms 8-12 years following abstinence”

### ACUTE METH PSYCHOSIS

### CHRONIC METH PSYCHOSIS

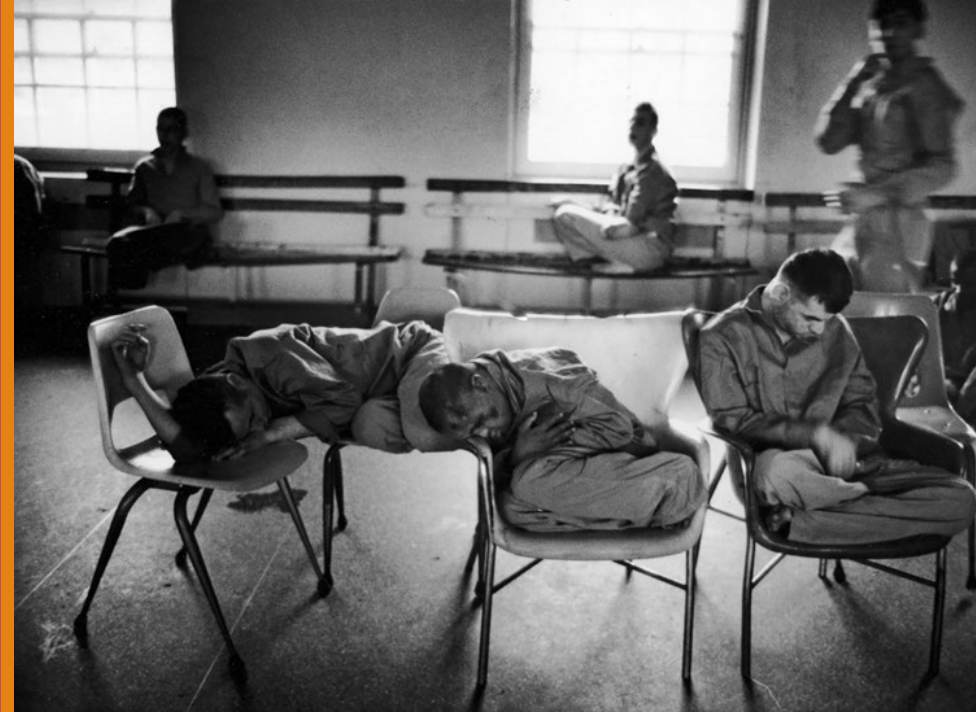

Wearne TA and Cornish JL (2018) A Comparison of Methamphetamine-Induced Psychosis and Schizophrenia: A Review of Positive, Negative, and Cognitive Symptomatology. Front. Psychiatry 9:491. doi: 10.3389/fpsyt.2018.00491

<https://www.frontiersin.org/journals/psychiatry/articles/10.3389/fpsyt.2018.00491/full#h12>

- **60% of METH-dependent** individuals sampled in the USA reported at **least one type of psychotic symptom.**
- Overall, recreational METH users are **two to three times more likely to experience psychotic symptoms** than the general population, with their risk increasing if they began using METH at a younger age or if large amounts of METH are administered.
- **Regular METH users,** on the other hand, **are 11 times more likely to experience psychosis** than the general population, with the average time between first use and onset of psychosis being 1.7 years.
- Furthermore, users of **crystallized METH are more likely to report psychotic symptoms** compared to other forms of METH, suggesting that the type and route of administration may be important factors in determining the likelihood of psychotic symptoms.

Is your jail set up to be a  
mental health hospital?

Missoula County spends approximately  
**\$1 Million** per year housing committed  
DPHHS Inmates

# Stop the revolving door:

- Fix Discharge Planning from Warm Springs to avoid future Commitments or crimes

- Divert and Deflect

- Continue funding Mobile Support and CIT

## Travel Arrangements:

Teamsters will transport Jason to the Poverello in Missoula, MT.

## Referrals for Financial Assistance:

Jason has Medicaid and social security benefits for income.

## Other Information:

The treatment team at Montana State Hospital recommends that Jason remain on the medication he will discharge on for a period of at least one month as he makes the transition back in to the community. the treatment team further recommends that Jason stay actively involved with his mental health services especially medication follow ups, and case management to ensure access to the services and resources available to him in the community. These services will improve Jason's quality of life and assist him in maintaining long term stability in the community.
