Director
AMY CARLSON

DATE: June 5, 2020
TO: Subcommittee on Pensions and Local Government
FROM: Cathy Duncan
RE: Infrastructure Funding Matrix

This matrix was originally an endeavor taken up during FY 2013 for the Legislative Finance Committee. The matrix is meant to provide information on funding opportunities available for local government infrastructure projects.

For this subcommittee, the initially included information has been summarized to a greater degree, and program funding has been added. This matrix focuses on state funded grant and loan programs, but the original matrix also included federal funding programs and programs that offered alternative types of benefits for local infrastructure endeavors.

Time didn't allow for the amount of research needed to update all federal infrastructure funding programs, but for future meetings, if the subcommittee is interested in pursuing this project, I will continue working on updating this information so it will again resemble the original matrix.
