Agency Highlights

Department of Fish, Wildlife, and Parks Major Budget Highlights

The non-budgeted proprietary appropriations for the department total about \$3.0 million. This is a 13.1% increase above base funding. Increases include:

- Proprietary maintenance program: \$1.6 million
- Statewide present law adjustments for personal services: \$1.1 million
- Aircraft and vehicle fleet rates: \$315,700

Executive Request

The following table shows the total executive request with the base budget and the statewide present law adjustments, present law adjustments, and new proposals by source of funding.

Non-Budgeted Proprietary Funds

The non-budgeted proprietary funds include all internal service and enterprise funds.

Internal service funds account for operations that provide services within the agency, or other agencies of state government, on a cost reimbursement basis. The include the use of department statewide facilities maintenance program, aircraft, vehicles, and the state warehouse.

Enterprise funds are revenues generated from goods or services to the public. For the department these are primarily from the sales of merchandise at the Montana Fish, Wildlife, and Parks (FWP) visitor centers.

Descriptions of all other funds in the table above can be found in the 2027 biennium budget analysis.

Agency Description

Montana Fish, Wildlife & Parks, through its employees and citizen commission, provides for the stewardship of the fish, wildlife, parks, and recreational resources of Montana, while contributing to the quality of life for present and future generations.

Additional information is included in the agency profile.

FY 2024 Appropriations Compared to FY 2024 Expenditures.

The department utilized 92.1% of its projected proprietary fund expenditure, amounting to \$1.7 million being unexpended. Of this unexpended portion:

- Operations accounted for the largest share at 70.7% or \$1.2 million of the unexpended amount, primarily within the Administration Department's maintenance program.
- Debt services related to the department's aviation and vehicle programs comprised 20.2% or \$338,800 of the unexpended amount.
- The remaining unexpended authority was distributed as follows:
 - \$108,900 for equipment
 - \$41,700 for personal services

FY 2024 Appropriations Compared to FY 2025 Appropriations

Anticipated expenditures in FY 2025 are 45.0% percent or \$9.6 million lower than FY 2024. Lower spending was anticipated primarily for equipment and intangibles which was budgeted \$6.9 million lower in FY 2025. Operating expenses were budgeted \$2.1 million lower and personal services \$567,200 lower.

Program Base Budget Comparison

Proprietary Program Description

Section 23-1-105 (5), MCA, authorizes the Parks Division of Montana Fish, Wildlife and Parks to establish an enterprise fund for the purpose of managing state park visitor services revenue.

The fund is used by the department to provide inventory through purchase, production, or donation and for the sale of educational, commemorative, and interpretive merchandise and other related goods and services at department sites and facilities.

The fund was established primarily to better manage Montana State Parks visitor centers that sell books, clothing, and commemorative items at parks like First Peoples Buffalo Jump, Makoshika, and Chief Plenty Coups as well as parks that sell items like firewood and ice. Monies generated go back into the purchase of inventory and the improvement of visitor services in state parks and FWP overall.

Revenues and Expenses

Revenues are generated by the sales of interpretive and educational merchandise at park visitor centers and regional offices. The expenses associated with the enterprise fund include personal services, office supplies, merchandising materials, and the purchase of inventory to replenish stock. In FY 2020, personal services were increased for positions that manage and promote educational, commemorative, and interpretive services.

Rates and Rate Explanation

A markup of 40.0% - 50.0% on goods sold is applied to ensure sufficient revenues are collected to cover expenses, and projected fund balance, including cash fluctuations. The objective is to maintain an adequate fund balance to cover the costs of promoting and managing the visitor centers. The cash balances are highest in the winter after the parks season ends and lowest in the spring when stock is purchased to replenish inventory.

Proprietary Rates

This program is funded with an enterprise fund, which is a type of proprietary fund. As such, the legislature does not appropriate the funds or approve the rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies concerns with the financial position of the fund.

Present Law Adjustments

The "Present Law" Adjustments table shows the changes from the base appropriation to the proposed budget. "Statewide Present Law" adjustments (DP 1, DP 2, DP 3) are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies.

| Present Law Adju | stments | | | | | | | | | |
|-------------------|-----------------------|--------------------|------------------|--------------------|----------------|-------------|-----------------|------------------|--------------------|----------------|
| Fiscal 2026 | | | | | | Fiscal 2027 | | | | |
| | PB | General Fund | State Special | Federal Special | Total Funds | РВ | General Fund | State Special | Federal Special | Total Funds |
| DP 1 - Personal S | Services 0.00 | 0 | 0 | 0 | (1,906) | 0.00 | 0 | 0 | 0 | (1,048) |
| Grand Total | I All Present 0.00 | Law Adjustm \$0 | nents \$0 | \$0 | (\$1,906) | 0.00 | \$0 | \$0 | \$0 | (\$1,048) |

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

The decision packages presented are for informational purposes only, offering insights into anticipated changes in expenditure that may affect the rates charged. These decision packages are not approved by the legislature. For internal service funds, the legislature approves the maximum rate that may be charged. For enterprise funds, the legislature reviews the rate and identifies any concerns.

DP 1 - Personal Services -

The executive proposes adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- · Management decisions
- Budget modifications made to the personal services budget in the 2025 biennium

Program Base Budget Comparison

The following table compares the base budget with the requested expenditures for the upcoming biennium by type of expenditure and source of funding.

| Program Base Budget Comparison | | | | | | |
|--------------------------------------|-------------|-------------|------------|---------------------------|---------------|--|
| | Base Budget | Requested [| Budget | Biennium Change from Base | | |

Program Highlights

Administration Division Major Budget Highlights

The non-budgeted proprietary funds increase by 13.8% or \$3.0 million compared to base funding. Increases in the anticipated expenditures include:

- Statewide present law adjustments for personal services: \$1.1 million
- Aircraft and vehicle proprietary rates: \$315,700
- Facilities maintenance proprietary program: \$1.6 million

Executive Request

The following table shows the total executive request with the base budget and the statewide present law adjustments, present law adjustments, and new proposals by source of funding.

Program Description

06502 FWP Fleet Fund

The department's equipment fund provides a fleet of vehicles to department employees.

Revenues and Expenses

Users are charged a usage rate for the number of miles driven and an assigned rate for the number of days a vehicle is used. The assigned rates are calculated to recover the costs of administration to operate the program (personal services and fixed operational costs) and replacement of fleet vehicles. The usage rates are calculated to recover the costs of fuel, supplies, repairs, and maintenance of the fleet. This fund supports a total of 4.56 PB.

In order to serve the specialized vehicle needs for the department, the fleet program has experienced an increase in workload to maintain vehicles and install necessary specialized modifications (for game warden trucks). In the previous biennium, the department added an additional modified PB fleet technician to meet this increased workload. The department requests to make the position permanent.

In FY 2024, department employees drove a total of 7.6 million miles in department-owned vehicles. The number of miles driven is expected to remain consistent over the next biennium. The department currently has a fleet of 638 vehicles. The department's request for vehicle replacement is for 56 vehicles in FY 2026 and 60 in FY 2027. This is based on replacing vehicles after a minimum of 180,000 miles. For the additional cost to the programs, the department submitted a decision package request, DP911. The department will also be managing this fund to ensure that the fiscal year end (FYE) balance will not exceed the 60-day working capital requirement.

Rates and Rate Explanation

The vehicle usage rate recovers the direct costs of fuel, supplies, repairs, and maintenance of the fleet. The assigned rates for vehicles are calculated to recover the costs of administration of the program (personal services, vehicle licensing, insurance and title work, utilities, etc) and replacement of fleet vehicles.

The executive proposes an increase to the Vehicle Usage proprietary rate when compared to the FY 2025 base rates. The figure below shows the rates proposed by the executive for the 2027 biennium.

| | FY 2026 Vehicle | Usage Rat | е | |
|--------------------|-----------------|------------|------------|------------|
| | Assigned Cost | Tier 1 | Tier 2 | Tier 3 |
| Vehicle Class | Rate per Day: | \$4.50/gal | \$5.00/gal | \$5.50/gal |
| 210 Sedan | \$17.30 | \$0.25 | \$0.25 | \$0.27 |
| 310 Van | \$23.30 | \$0.31 | \$0.32 | \$0.34 |
| 410 Utility | \$19.00 | \$0.40 | \$0.41 | \$0.43 |
| 610 1/2 Ton Pickup | \$17.80 | \$0.50 | \$0.52 | \$0.55 |
| 710 3/4 Ton Pickup | \$17.90 | \$0.58 | \$0.60 | \$0.64 |
| 1 Ton | \$17.90 | \$0.58 | \$0.60 | \$0.64 |

| | FY 2027 Vehicle | Usage Rat | e | |
|--------------------|-----------------|------------|------------|------------|
| | Assigned Cost | Tier 1 | Tier 2 | Tier 3 |
| Vehicle Class | Rate per Day: | \$4.50/gal | \$5.00/gal | \$5.50/gal |
| 210 Sedan | \$17.30 | \$0.25 | \$0.26 | \$0.27 |
| 310 Van | \$23.40 | \$0.32 | \$0.33 | \$0.35 |
| 410 Utility | \$19.80 | \$0.40 | \$0.41 | \$0.44 |
| 610 1/2 Ton Pickup | \$18.40 | \$0.51 | \$0.53 | \$0.56 |
| 710 3/4 Ton Pickup | \$18.40 | \$0.59 | \$0.61 | \$0.65 |
| 1 Ton | \$18.40 | \$0.59 | \$0.61 | |

This program is funded with an internal service fund, which is a type of proprietary fund. As such, the legislature approves the maximum rate the program may charge during the biennium. They are not the rates the program must charge.

Changes in Level of Fees and Charges

The assigned rate for vehicles in this fund has increased in order to recoup the cost of annual replacement vehicle purchases. The usage rate for vehicles in this fund has increased in order to recoup the increased cost of fuel. A decision package, PL911 was submitted to request the necessary funds to cover the increased cost to the programs.

Projected Fund Balance, Including Cash Fluctuations

At FYE 2024, the vehicle fleet fund had a cash balance of \$912,362 and the book value (original cost less accumulated depreciation) of the fleet was \$11,024,516. The fund's cash balance fluctuates during the year for two reasons. The first is that more miles are driven in the summer and fall than during the winter and spring. The second reason is that new vehicles are purchased in the spring. Thus, the cash balance is normally highest just before purchasing the replacement vehicles and lowest in the spring after purchasing the vehicles. The department was unable to purchase all requested replacement vehicles in FY 2022 and FY 2023 due to a supply shortage. The department reserved this cash balance until the purchase orders were fulfilled in FY 2024. All purchase orders have now been fulfilled and the department aims to resume regular cash balances in future years.

Working Capital and Fees Commensurate Analysis

The department attempts to manage this fund with a 60-day working capital Balance will be available when the cash balance is at its lowest level. Most replacement vehicles are purchased and received in the spring.

Fund 06540 - Aircraft Fund

Program Description

The department's aircraft fund provides specialized flying services using fixed-wing and helicopter aircraft to department employees to survey fish and wildlife, plant fish, monitor radio telemetry locations, etc. The users are department employees.

Revenues and Expenses

The Aircraft Fund charges a rate per hour by aircraft type for hours flown. The largest costs of the aircraft fleet are replacement aircraft, fuel, and repairs.

In FY 2024, the department flew approximately 2,154 hours in department aircraft. In FY 2024, the aircraft fleet generated \$1,336,802 in revenue. The department expects flight hours to remain steady for FY 2026 and FY 2027.

The aircraft unit has experienced an increase in the amount of time aircraft are grounded awaiting services such as repairs and routine maintenance when seeking these services in the private sector. The department requests to add 1.00 FTE aircraft mechanic to the aircraft unit in order to reduce the amount of time an aircraft is grounded for repairs or maintenance in order to better serve department employees.

Rates and Rate Explanation

The hourly rates requested are calculated to recoup the projected operating costs of the Aircraft Fund. The cost drivers for each rate includes fuel, repairs, supplies, rent, insurance, and other general operational costs as well as previously authorized loan payments for the purchase of replacement aircraft.

The executive proposes an increase to the Aircraft proprietary rates when compared to the FY 2025 base rates. The figure below shows the rates proposed by the executive for the 2027 biennium.

| Aircraft | Proposed | Proposed | | |
|--------------------------------|----------|----------|--|--|
| Hourly Rate | FY 2026 | FY 2027 | | |
| Two place single-engine plane | \$454 | \$558 | | |
| Four place single-engine plane | \$454 | \$558 | | |
| Turbine helicopter | \$1,095 | \$1,102 | | |

This program is funded with an internal service fund, which is a type of proprietary fund. As such, the legislature approves the maximum rate the program may charge during the biennium. They are not the rates the program must charge.

Changes in Level of Fees and Charges

The anticipated increase in the hourly rates to the aircraft unit for FY 2026 and FY 2027 are due to routine aircraft inspections and repairs as well as the loan payments from the previous biennia for aircraft replacements. A decision package, PL912 was submitted to request the necessary funds to cover the increased cost to the programs.

Projected Fund Balance, Including Cash Fluctuations

The book value (original cost less accumulated depreciation) of department aircraft was \$2,722,120 at FYE 2024. The cash balance has fluctuated in the in the last four years as the department was preparing to make large purchases when replacing aircraft—the purchasing process for which is quite unique and time-sensitive—while also working to maintain an appropriate working capital balance and establishing loans for these large aircraft purchases to minimize sudden increased costs to the department's base programs.

Working Capital and Fees Commensurate Analysis

The department attempts to manage this account so that a 60-day working capital amount of cash is available when the cash balance is at its lowest level. Cash balances fluctuate during the year for two reasons. Monthly flight hours vary due to optimum times to do species counts, and major repairs and scheduled maintenance occur sporadically throughout the year.

Fund 06513 - FWP Maintenance Fund

Program Description

The maintenance fund provides internal maintenance services to department-owned and/or maintained lands. This fund supports a total of 72.34 FTE and associated maintenance operations costs such as tools, supplies, and equipment.

The maintenance unit has experienced an increase in workload to address maintenance backlogs and implement more consistent routine and preventative maintenance activities on all department-owned and/or maintained lands. In the previous biennium the department added 7.58 modified FTE maintenance staff to meet this increased workload. The department requests to make these positions permanent as well as add 7.00 FTE in addition for a total increase of 14.58 FTE.

Revenues and Expenses

Revenue is generated from the hourly rate charged for hours worked performing maintenance at a department-maintained property. The expenses to this fund include personal services and operations costs such as tools, supplies, and equipment.

Rates and Rate Explanation

The hourly rate for maintenance services provided is billed to the corresponding program.

The executive proposes a decrease to the maintenance proprietary rate when compared to the FY 2025 base rates. The figure below shows the rates proposed by the executive for the 2027 biennium.

| Maintenance | FY 2025 | Proposed FY 2026 | Proposed FY 2027 |
|-------------|---------|------------------|------------------|
| Hourly Rate | \$78.50 | \$76.50 | \$76.50 |

This program is funded with an internal service fund, which is a type of proprietary fund. As such, the legislature approves the maximum rate the program may charge during the biennium. They are not the rates the program must charge.

Changes in Level of Fees and Charges

This fund was approved by the legislature beginning in the 2025 Biennium. The department's rate for the 2025 Biennium included costs to establish a working capital balance for the fund. Now that the working capital balance is established, the department aims to maintain a sufficient fund balance in future years. This biennium the agency is proposing a reduction in the hourly rate to reflect this change.

Working Capital and Fees Commensurate Analysis

The department aims to maintain a 60-day working capital fund balance over the biennium and does not anticipate any large cash fluctuations from year to year.

Projected Fund Balance, Including Cash Fluctuations

The department attempts to manage this account so that a 60-day working capital amount of cash is available when the cash balance is at its lowest level.

| Grand Tota | Grand Total All Present Law Adjustments 0.00 \$0 \$0 \$0 \$551,466 0.00 \$0 \$0 \$5 \$566,66 | | | | | | | | | | |

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

The decision packages presented are for informational purposes only, offering insights into anticipated changes in expenditure that may affect the rates charged. These decision packages are not approved by the legislature. For internal service funds, the legislature approves the maximum rate that may be charged. For enterprise funds, the legislature reviews the rate and identifies any concerns.

DP 1 - Personal Services -

The executive proposes adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- · Management decisions
- Budget modifications made to the personal services budget in the 2025 biennium

New Proposals

The "New Proposals" table shows new proposals for spending.

Agency Highlights

Department of Environmental Quality Major Budget Highlights

The department non-budgeted proprietary funding increased by about \$485,800 compared to the base budget. Increases include:

- Statewide present law adjustments: \$670,900
- Information Technology Services Consolidation (Reduction): \$212,100

Executive Request

The following table shows the total executive request with the base budget and the statewide present law adjustments, present law adjustments, and new proposals by source of funding.

Proprietary Program Description

The Central Services Division is funded with a non-budgeted proprietary fund. The legislature does not appropriate funds but rather approves rates for the proprietary fund. The Department of Environmental Quality (DEQ) indirect fund supports common functions across DEQ, including administration, human resources, and information technology. In this regard, the indirect fund can be thought of as the "overhead" of DEQ.

Revenues and Expenses

The fund is supported by a charge against other divisions of DEQ. The percentage of the charge is approved by the United States Environmental Protection Agency.

Rate(s) and Rate Explanation

The rate being requested is a fixed rate that will not exceed 28% of the personal services base. This rate structure has been effective in providing the needed revenue to the internal service fund to provide services to all of the programs.

This program is funded with an internal service fund, which is a type of proprietary fund. As such, the legislature approves the maximum rate the program may charge during the biennium. They are not the rates the program must charge.

| Ending Net Position - June 30 | (712,930) | (143,842) | 945,136 | 963,887 | 702,610 | 597,747 |

Changes in Level of Fees and Charges

The percentage has remained the same. However, the percentage split has changed from 24% personal services base, 4% operating services base to 28% personal services base.

FY 2024 Appropriation Compared to FY 2024 Actual Expenditures

The agency expended 81.9% or the FY 2024 budget, leaving \$1.7 million unexpended. Unexpended budget categories include:

Personal services: \$671,300Operating expense: \$1.4 million

• Debt service was over expended: \$504,000

• Other categories: \$124,700

FY 2024 Appropriations Compared to FY 2025 Appropriations

The budget for personal services and operating expense combined increase by 4.9% or \$454,400 in FY 2025 compared to FY 2024.

Present Law Adjustments

The "Present Law" Adjustments table shows the changes from the base appropriation to the proposed budget. "Statewide Present Law" adjustments (DP 1, DP 2, DP 3) are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies.

| Present Law Adju | stments | | | | | | | | | |
|---------------------|---------------|-----------------|------------------|--------------------|----------------|------|-----------------|------------------|--------------------|----------------|
| - | | | Fiscal 2026 | | | | Fiscal 2027 | | | |

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

The decision packages presented are for informational purposes only, offering insights into anticipated changes in expenditure that may affect the rates charged. These decision packages are not approved by the legislature. For internal service funds, the legislature approves the maximum rate that may be charged. For enterprise funds, the legislature reviews the rate and identifies any concerns.

DP 1 - Personal Services -

The executive proposes adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- · Management decisions
- Budget modifications made to the personal services budget in the 2025 biennium

DP 2 - Fixed Costs -

The executive proposes adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: warrant writer, motor pool, information technology services, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 3 - Inflation Deflation -

The executive proposes adjustments to reflect budgetary changes generated from the application of inflation and deflation factors to specific expenditure accounts. Affected accounts include in-state state motor pool and motor pool leased vehicles.

New Proposals

The "New Proposals" table shows new proposals for spending.

| New Proposals | | | | | | | | | | |
|-----------------|----------------|-----------------|------------------|--------------------|----------------|--------|-----------------|------------------|--------------------|----------------|
| | | | Fiscal 2026 | | Fiscal 2027 | | | | | |

Agency Highlights

Department of Transportation Major Budget Highlights

The Montana Department of Transportation's (MDT) 2027 biennium non-budgeted proprietary appropriations are approximately \$22.5 million or 23.0% higher than the FY 2025 base budget. Significant changes include:

- Statewide present law adjustments totaling (\$730,765) for the biennium These include:
 - DP 1 Personal services: (\$195,586)
 - DP 2 Fixed costs: (\$535,053)
 - DP 3 Inflation/Deflation: (\$126)
- Present law increases totaling \$22.7 million for the biennium.
 Major changes include:
 - DP 805 Equipment replacement purchases: \$16.0 million
 - DP 808 Equipment Repair Increase: \$6.7 million
- New proposals totaling \$568,722 for the biennium, an increase of 3.00 PB. Details of major changes include:
 - Equipment program
 - An increase of 3.00 PB and associated pay and benefits for traveling mechanic

| Total of All Funds Percent of All Sources of Authority | - 0.0% | - 0.0% | 121,831,567 44.9% | 149,668,156 55.1% | 271,499,723 | | | | | |

Non-Budgeted Proprietary Funds

The Motor Pool is funded with an internal service fund, which is a type of proprietary fund. Since all agencies in state government utilize motor pool, the legislature approves the maximum rate the program may charge agencies during the biennium. They are not the rates the program must charge.

The Equipment Program is also an internal service fund but as it only serves MDT, the rates are not required to be approved by the legislature. However, the 60-day working capital reserve must be approved by the legislature and then is included in section R of HB 2.

The Yellowstone Airport is discussed in the Aeronautics program.

Program Highlights

State Motor Pool Major Budget Highlights

The State Motor Pool 2027 biennium non-budgeted proprietary appropriations are \$175,164 or 1.2% lower than the FY 2025 base budget. Significant changes include:

- The motor pool rates proposed by the executive are lower than the previous biennium due to a decrease in fuel prices
 - Although the usage rate has declined due to fuel price changes, the assigned rate rose due to increases in vehicle purchase prices. Rates have decreased overall
 - Increased vehicle purchase prices are reflected in increased operating costs
- Statewide present law adjustments total (\$175,164) for the biennium
 - DP 1 Personal Services: (\$6,301)
 - DP 2 Fixed Costs (\$168,863)

Proprietary Program Description

The State Motor Pool operates and maintains a fleet of vehicles available to all state offices and employees who conduct official state business. The State Motor Pool has two basic components: 1) the daily rental fleet and 2) the out-stationed lease fleet. The daily rental program operates out of the Helena headquarters facility and provides vehicles for short-term use. The leasing program provides vehicles for extended assignment to agencies statewide.

Section 2-17-411, MCA, establishes that the Department of Transportation's Motor Pool is responsible for the acquisition, operations, maintenance, repair, and administration of all motor vehicles in the custody of the Motor Pool (this does not apply to motor vehicles used in the service of the Governor, Attorney General, or the highway patrol).

Use of the program is optional to agencies when personnel are required to travel by vehicle for official state business but is encouraged in the Montana Operations Manual (MOM). Other options for state employees are: 1) other state-owned vehicles not part of the State Motor Pool fleet; 2) personal vehicles, with authorization provided by the agency director; or 3) vehicles from a private rental agency contract. The rate for the use of personal vehicles for state business travel are set by the Internal Revenue Service for the current year if the State employee qualifies according to the conditions as discussed in the Employee Travel policy of the MOM manual.

FY 2024 Appropriation Compared to FY 2024 Actual Expenditures

Appropriations for FY 2024 were 99.1% expended.

FY 2024 Appropriations Compared to FY 2025 Appropriations

Overall appropriations for FY 2025 are 21.0% or \$1.9 million below FY 2024 appropriations. The main difference is in equipment and intangible assets which is \$1.0 million lower in FY 2025 than FY 2024. The program currently plans to spend \$3.8 million on auto purchases in FY 2025, the same amount as FY 2023. Other differences include debt service which is 73.7% or \$335,000 lower in FY 2025. Operating expenses in FY 2025 are 17.4% or \$519,548 lower in FY 2025. In FY 2024 aircraft repairs and other expenses were performed that are not expected in FY 2025.

Motor Pool Program - 06506

Proprietary Program Revenues and Expenses

Program revenues are generated through vehicle rental fees charged to the state agencies. Vehicle rental fees come from two service classes: 1) short-term rentals; and 2) long-term leases. On occasion, the program receives revenues resulting from the sale of surplus property and accident damages reimbursed by private individuals or insurance companies.

Proprietary Rates

As shown in the figure, the State Motor Pool rental rates are based on a dual rate structure. Users pay a usage rate and an assigned rate. The usage rate is charged for actual miles driven and allows the program to recover costs directly related to the operation of the vehicle, such as repairs, parts, fuel, lubricants, and tires. The assigned rate is charged for hours the vehicle was used and allows the program to cover fixed costs associated with state ownership, such as insurance, interest payments on BOI loans, depreciation, and utilities. The dual rate structure provides: 1) more stable revenue to make loan payments and other cost obligations; and 2) equity among all vehicle classes so that one vehicle class does not subsidize another vehicle class. The rates approved by the legislature are the maximum the program may charge during the biennium, not the rates the program must charge. When approved by the Legislature, the rates are included in HB 2, Section R.

DP 1 - Personal Services -

The executive budget includes adjustments to the present law personal services budget. This has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- · Management decisions
- · Budget modifications made to the personal services budget in the 2025 biennium

DP 2 - Fixed Costs -

The executive budget includes adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: audit fees, Capitol complex rent, information technology services, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 705 - Operations Budget Increase -

This change will increase the operations budget for the program in order to cover increases in the cost of repair parts and services to the motor pool fleet.

Program Highlights

Equipment Program Major Budget Highlights

The Equipment Program's 2027 biennium non-budgeted proprietary appropriations are approximately \$22.7 million or 27.4% higher than the FY 2025 base budget. Significant changes include:

- Statewide present law adjustments total (\$551,193) for the biennium, 100% proprietary
 - DP 1 Personal services: (\$188,226)
 - DP 2 Fixed costs: (\$362,841)
 - DP 3 Inflation/deflation: (\$126)
- Present law adjustments total \$22.7 million, 100% proprietary
 - DP 805 Equipment replacement purchases: \$16.0 million
 - DP 808 Equipment repair increase: \$6.7 million
- New proposal adjustments total \$568,722 and 3.00 PB
 - DP 809 Traveling Mechanics: \$568,722 and 3.00 PB to replace modified positions with permanent funding for PB

Non-Budgeted Proprietary Funds

Funding for the Equipment Program is generated through user fees charged to programs and divisions in MDT, which are deposited in a proprietary fund. The source for the majority of funding for this program are state special funds, this is because the Maintenance Program is the primary customer of the Equipment Program.

Program Actuals and Budget Comparison

The following table compares FY 2024 actual expenditures, FY 2024 and FY 2025 appropriations, and the expenditures requested for FY 2026 and FY 2027 by type of expenditure and source of funding.

Proprietary Program Description

The Equipment Program is responsible for the acquisition, repair, maintenance, and disposal of a fleet of approximately 4,700 individual units. The fleet is comprised of light duty vehicles, single and tandem axle dump trucks, specialized snow removal units, roadway maintenance units, and other specialized equipment. Exclusively the various programs within the Montana Department of Transportation (MDT), such as Construction, Motor Carrier Services, Maintenance, and Rail, Transit and Planning use the fleet. All units are assigned to the various user programs and are charged rental on a bi- weekly basis. Alternate sources for vehicles and equipment include renting heavy equipment from a rental company and renting or leasing light duty vehicles from a private rental agency contract.

The Equipment Program is funded under the rules and guidelines of HB 576. No specific statutory authority is established for the program as the program is strictly internal to the Department of Transportation and is not used by any outside entity.

FY 2024 Appropriation Compared to FY 2024 Actual Expenditures

Appropriations for FY 2024 were 99.2% expended.

FY 2024 Appropriations Compared to FY 2025 Appropriations

Overall appropriations for FY 2025 are 2.4% or approximately \$1.0 million greater than FY 2024. The primary increase was in equipment and intangible assets which is 11.5% greater in FY 2025 due to equipment purchases and major maintenance. Personal services is 4.9% higher due to pay plan increases.

Equipment Program - 06508

Expenses

Program costs for FY 2024 include:

- Personal services for 123.00 PB of \$10.5 million or 26.7% of total expenditures
- Operating expenses of \$18.4 million or 46.9% of total expenditures
- Equipment and intangible assets of \$10.6 million for repairs and purchases, 26.5% of total expenditures

Changes between the 2025 biennium budget and the 2027 biennium budget include:

- Personal services projected to increase by 1.6% and 3.00 PB
- Operating expenses projected to increase by 17.6%
- Equipment purchases projected to increase by 66% or \$16.0 million

Revenues

Revenue is generated through the vehicle/equipment rental fees, from the gain on sale of surplus assets, and from reimbursements from accidents caused by an outside party. Revenues for the fleet are functionally tied to the severity of the winter, construction program workload and travel requirements of the various department users. The rental rates will be set to recover revenue to meet the program's obligations.

Present Law Adjustments

The "Present Law" Adjustments table shows the changes from the base appropriation to the proposed budget. "Statewide Present Law" adjustments (DP 1, DP 2, DP 3) are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies.

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

DP 1 - Personal Services -

The executive budget includes adjustments to the present law personal services budget. This has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- Management decisions
- Budget modifications made to the personal services budget in the 2023 biennium

DP 2 - Fixed Costs -

The executive budget includes adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: audit fees, Capitol complex rent, information technology services, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 3 - Inflation Deflation -

The executive budget includes adjustments to reflect budgetary changes generated from the application of inflation and deflation factors to specific expenditure accounts. Affected accounts include: other services, supplies and materials, communications, in-state motor pool and motor pool leased vehicles, and repair and maintenance.

DP 805 - Equipment Replacement Purchases -

The executive budget includes an adjustment to replace equipment and vehicles.

DP 808 - Equipment Repair Increase -

The executive budget includes an adjustment due to the increase of cost in repair for aging vehicles and equipment.

New Proposals

The "New Proposals" table shows new proposals for spending.

Program Highlights

Aeronautics Program Major Budget Highlights

The Aeronautics Program's 2027 biennium non-budgeted appropriations are approximately

\$218,000 or 3.2% higher than the FY 2025 base budget. Significant changes include:

- Statewide present law increase totaling \$218,428 for the biennium, 2.6% federal, 97.4% state special
 - DP 1 Personal services: \$230,477 for the biennium
 - DP 2 Fixed costs: (\$11,994) for the biennium
 - DP 3 Inflation/Deflation (\$55) for the biennium

HB 2 Appropriations

The Aeronautics program is funded with state and federal special revenues. State special revenue funds are derived primarily from state aviation fuel taxes and aircraft registration fees. Federal special revenue comes from Federal Aviation Administration grants.

Statutory Appropriations

The statutorily appropriated Aeronautical Grant Account receives most of its funding from 90% of a 4.5 cent per gallon tax on aviation fuel, and provides funding for grants to Montana communities for aviation related projects.

Non-Budgeted Proprietary Funds

The Yellowstone Airport enterprise program, is supported by proprietary funding and is a not budgeted in HB 2.

Yellowstone Airport - 06007

Program Description

The Yellowstone Airport located two miles north of the Town of West Yellowstone, Montana provides the closest private and commercial air service to Yellowstone National Park, as well as service for a multitude of other recreational opportunities in the surrounding greater Yellowstone area. The airport is closed during the winter months, conducting limited snow removal in fringe seasons. The airport is typically open for six months each year with seasonal commercial air service provided by SkyWest Air Lines dba Delta Connection and SkyWest Air Lines dba United Express from early-May to mid-October. The airport accomplishes its mission with facilities to accommodate all sized aircraft and operations ranging from large four engine commercial service jets to small single engine aircraft.

Airside facilities at the airport include an 8,400' runway and taxiway, as well as large parking apron and hangar areas for all types of aircraft operations. The runway is equipped with a precision approach instrument landing system (ILS) and a GPS approach accommodating air traffic even during inclement weather conditions. The airport also supports and maintains an Automated Weather Observing System (AWOS) which reports directly to the National Weather Service (NWS) and broadcasts locally to air traffic over a VHF transmission. Other airport facilities include a commercial terminal building with tenants that include a restaurant, rental car agencies, Transportation Security Administration (TSA) offices, airline offices, and airport administration and operations. Also located on the field are several outbuildings and other facilities housing bulk fuel storage, a fixed based operator (FBO), an air ambulance base, and Airport Rescue Fire Fighting (ARFF) services. The US Forest Service operates an inter-agency fire control center with direct through the fence access to the airfield. A wildlife fence surrounds the entire airport property.

Revenues and Expenses

Fees for leases and other business services are both market and recovery based. Additional operating expenses are planned in the 2027 biennium to keep the airport in compliance with FAA mandates and advisory circulars. The Yellowstone Airport is an enterprise proprietary fund. There is one airport manager who works full time, year-round. The airport also has two other employees, an airport operation chief and an airport fire fighter/maintenance specialist who are employed seasonally.

Program Description

The Aeronautics Program: 1) facilitates the operation and infrastructure of airports and airways, both public and private, throughout Montana; 2) provides mechanisms for funding airport and aviation related projects throughout the state; 3) registers aircraft and pilots in accordance with Montana laws and regulations; 4) fosters, promotes, and supervises aviation and aviation safety through educational efforts and programs; and 5) coordinates and supervises aerial search and rescue operations.

The program administers a loan and grant program to airport sponsors to fund airport improvement projects. The Aeronautics Board approves loan and grant requests.

The program serves as a liaison between the State of Montana and various other entities including the U.S. Department of Transportation, the Federal Aviation Administration (FAA), US Forest Service, other federal and state entities, and commercial airlines in order to assure the retention and continuation of airline service to Montana's rural communities and to support general aviation operations.

The program is also responsible for operation of the commercial service airport just north of West Yellowstone, MT and for 13 other state-owned or operated airports.

FY 2024 Appropriation Compared to FY 2024 Actual Expenditures

The Aeronautics Program expended 46.5% of its FY 2024 non-budgeted appropriation. The personal services appropriation of \$245,219 was 34.5% expended, most of the personal services recently has recently been covered with federal CARES Act Operating and Maintenance (O and M) funds rather than planned proprietary funding. The operating expense budget was 53.6% expended for similar reasons.

FY 2024 Appropriations Compared to FY 2025 Appropriations

The FY 2025 appropriation is 2.7% greater than the FY 2024 appropriation. The main difference is that there are no planned equipment purchases in FY 2025.

Present Law Adjustments

The "Present Law" Adjustments table shows the changes from the base appropriation to the proposed budget. "Statewide Present Law" adjustments (DP 1, DP 2, DP 3) are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies.

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

DP 1 - Personal Services -

The executive requests adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- · Management decisions
- · Budget modifications made to the personal services budget in the 2025 biennium

DP 2 - Fixed Costs -

The executive requests adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: audit fees, Capitol complex rent, information technology services, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 3 - Inflation Deflation -

The executive requests adjustments to reflect budgetary changes generated from the application of inflation and deflation factors to specific expenditure accounts. Affected accounts include: other services, supplies and materials, communications, in-state motor pool and motor pool leased vehicles, and repair and maintenance.

Program Description

The Montana Veterinary Diagnostic Laboratory (MVDL) is the only accredited, full-service veterinary laboratory in Montana. The division provides disease diagnostic support to veterinarians, livestock producers, companion animal owners, and the Department of Fish, Wildlife, & Parks as well as other state and federal agencies. The division provides laboratory support to the department's Animal Health and Food Safety Division and helps protect public health by testing dairy products and testing for zoonotic diseases. The laboratory is a member and participant of the National Animal Health Laboratory Network established to provide laboratory diagnostic support in the event of a local, regional, or national animal disease emergency.

Revenues and Expenses

Lab testing fees and charges for services collected from veterinarians and other users/customers of the lab make up the total proprietary fund revenue for the MVDL program. Proprietary funds from lab operations support about forty percent of all lab operations including 4.75 staff positions (\$370,000) and \$1,200,000 in related testing expenses. The balance of revenue and expenses are budgeted in general fund and state special revenue funds. The lab in FY 2024 generated \$1,528,468 in proprietary revenue. Outside of inflationary adjustments, there are no major expected changes in services or fees from lab operations.

Rate(s) and Rate Explanation

This program is funded with an enterprise fund, which is a type of proprietary fund. As such, the legislature does not appropriate the funds or approve the rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies concerns with the financial position of the fund.

Lab fee rates are predominately set by the industry across the nation. The current MVDL fee schedule can be found at: https://liv.mt.gov/Diagnostic-Lab/Guidance-Documents-and-Test-Fees

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

The decision packages presented are for informational purposes only, offering insights into anticipated changes in expenditure that may affect the rates charged. These decision packages are not approved by the legislature. For internal service funds, the legislature approves the maximum rate that may be charged. For enterprise funds, the legislature reviews the rate and identifies any concerns.

DP 1 - Personal Services -

The executive proposes adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- Legislatively approved changes
- · Management decisions
- · Budget modifications made to the personal services budget in the 2025 biennium

DP 2 - Fixed Costs -

The executive proposes adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: warrant writer, motor pool, information technology services, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 3 - Inflation Deflation -

The executive proposes adjustments to reflect budgetary changes generated from the application of inflation and deflation factors to specific expenditure accounts. Affected accounts include in-state state motor pool and motor pool leased vehicles.

New Proposals

The "New Proposals" table shows new proposals for spending.

| New Proposals | | | | | | | | | | |

Agency Highlights

Department of Natural Resources and Conservation Major Budget Highlights

The Department of Natural Resources and Conservation's non-budgeted proprietary appropriations increased by about \$382,100 above base funding. The entire increase is due to statewide present law adjustments.

Executive Request

The following table shows the total executive request with the base budget and the statewide present law adjustments, present law adjustments, and new proposals by source of funding.

Proprietary Program Description

Fund 06003 - State Nursery Enterprise Fund

Program Description

The Montana State Conservation Seedling Nursery produces and distributes seedlings for conservation plantings, including applications such as fire and logging reforestation, farmstead windbreaks, shelterbelts, wildlife habitat, stream stabilization and restoration, and other conservation uses. The program's mission is to produce the highest quality, locally-adapted, source-identified seedlings available for conservation practices in Montana and to ensure affordable seedlings are available to Montana landowners. The nursery grows an average of 900,000 seedlings annually on 87 acres of state land and in 17,760 square feet of greenhouse space. Sixty-seven plant species are currently in production. The Nursery program is funded solely from the Nursery proprietary account and contains 10.92 PB. Statutory authority for the program is in 17-2-102, MCA.

Revenues and Expenses

The primary source of revenue is seedling sales. Other revenue sources are services such as seed collection, cleaning, and storage and selling products for seedling care and protection. The customer base for nursery products and services is comprised of private landowners in Montana, the DNRC Trust Land Management Division, the Department of Fish, Wildlife and Parks, Department of Environmental Quality, Montana Natural Resource Damage Program, the Conservation Reserve Program (CRP), Native American Tribal Governments, the Wildlife Habitat Incentives Program (WHIP), Pheasants Forever, and numerous other conservation programs and organizations. Historic and projected trends in nursery revenue are dependent on conservation activity in the state, landowner access to cost-share dollars for implementation of conservation projects, and long-term seedling production contracts from large scale conservation activities. Revenue potential is also dependent on the number of seedlings available for sale each fiscal year. Sales are predicted two to three years in advance due to the production time needed for each seedling type. This can lead to seedling shortages or surpluses when unforeseen events such as extended drought or extreme fire seasons alter demand for seedlings.

The determining factors that set seedling prices are the actual fixed and variable costs of producing the seedlings. Market pressures from other out-of-state seedling producers can also influence prices. Prices are set to recover all program costs and to increase the year-end carryover balance. Year-end carryover dollars are used for non-typical expenses such as large equipment replacement or for unforeseen expenses such as weather-related crop losses. Since the nursery is funded primarily by seedling sales, all personal services, operating, and capital equipment costs are included when setting prices.

Rate(s) and Rate Explanation

The price of each seedling type is set at the end of the previous fiscal year. Prices are based on the actual production costs for each seedling type. The variables involved in seedling production include seedling stock type (bareroot vs. container), seed cost, propagation difficulty, cull rates, seedling age class, quantity produced, equipment costs, labor costs, and overhead charges. Given these variables, each of the 125-plus seedling types can have a different price, and the price must be adjusted annually to account for changes in fixed and variable costs.

Proprietary Rates

This program is funded with an enterprise fund, which is a type of proprietary fund. As such, the legislature does not appropriate the funds or approve the rates for the program. Instead, the legislature reviews the report for the enterprise fund and identifies concerns with the financial position of the fund.

Projected Fund Balance, Including Cash Fluctuations

The projected fund balance for the program is anticipated to decrease gradually over the next three fiscal years according to the required analysis, which incorporates an expectation of expending the full proprietary appropriation each year. However, the program generally tailors its expenditures in accordance with revenues received and available cash in the fund to avoid a negative fund balance.

Fund 06538 - Air Operations Internal Svc

Program Description

The Air Operations program in the DNRC Forestry & Trust Lands Division operates and maintains a fleet of ten aircraft, consisting of seven helicopters and three single-engine, fixed-wing aircraft. The aircraft are primarily used for fire detection, support, and suppression of wildfires, as well as reclamation work in the Department of Environmental Quality. The program is funded in part by revenue generated by the aircraft hourly flight rates and in part by the general fund and fire protection assessment revenues. Statutory authority for the program is found in 77-5-103, MCA, and 17-2-102, MCA.

The Air Operations program provides fire suppression capability year-round across the state of Montana to protect lives, property, and natural resources. Historically, additional aviation resources needed for large fire support are ordered through the national interagency system on a call when needed basis, and related costs are charged to the fire suppression fund. Contracted aviation services are available from private contractors, but historically the costs for these services have been two to three times more than the cost of the state-operated aircraft. In fire season 2024, the program supplemented state suppression aircraft capabilities by contracting for an exclusive use, Type 1, tanked helicopter and used state agreements to bring in an air attack, and a large air tanker, charged to preparedness funding in the fire suppression fund.

Revenues and Expenses

Revenues and expenditures are managed through an internal service fund to account for the operational costs of the program. The primary source of revenue is the legislative appropriation for the transfer of general fund and fire protection assessment funds to the proprietary account to cover the fixed costs, which include hangar rent, insurance, and personnel costs (14.23 PB). These fixed costs must be paid regardless of the number of hours flown. Variable costs that are dependent on the hours flown, such as fuel and maintenance, are recovered through an hourly rate charged to all users of the aircraft. Users of the aircraft include DNRC, other state agencies, local government, and federal agencies. Increased flight rates are proposed below to meet increased costs of fuel and parts needed to maintain the flight worthiness of the aircraft.

The cost drivers for the aircraft rates are to recover the actual expenses needed to maintain the aircraft in an air worthy condition and remain mission ready for the purpose of initial attack on wildfires on state, private, and federal ownership; this includes all costs associated with the maintenance and operation of the aircraft. Some factors that contribute to the uncertainty in forecasting future expenses include unforeseen events such as Federal Aviation Administration (FAA) and manufacturer repair and maintenance directives, aircraft mechanical issues resulting in unplanned maintenance, cost fluctuations in fuel and parts, and the length and severity of the fire season. Annual and routine maintenance requirements of aircraft are used to estimate the anticipated future costs. Charges for services do not support any PB for the aviation section. All PB are supported by the general fund and fire protection assessment fixed costs transfer.

The department has limited cooperative agreements to assist federal agencies (U.S. Forest Service, BLM, USFWS, BIA, & NPS) and counties with fire protection. The department also has agreements with other state agencies for non-fire related aircraft rental services. The customers served are comprised primarily of state and private landowners within Montana through initial attack of fires under state direct protection, assistance with fires on county protection, and assistance to federal agencies. Historic and projected trends are dependent on length and severity of the fire seasons. Base year funding by fund type would be comprised primarily from state responsibility and county assistance fires paid by the fire suppression fund (state special revenue) and FEMA and U.S. Forest Service (federal special revenue). SABHRS account code 62525 is used by state customers to record expenses for flight time charges.

Rate(s) and Rate Explanation

The flight rates for the operation of the department aircraft are based on 5,000 hours of aircraft usage. The rate has been determined to maintain the aircraft in its original condition. At the end of 5,000 hours, all parts should have been replaced and a new maintenance/operation cycle started.

Proprietary Rates

The executive proposes an increase to Air Operations Program proprietary rate when compared to the FY 2025 base rates. The figure below shows the rates proposed by the executive for the 2027 biennium.

| DNRC Air Opera | DNRC Air Operations Program Proprietary Rates | | | | | | | | | |
|-------------------|---|-----------------|-----------------|--|--|--|--|--|--|--|
| | FY 2025 | FY 2026 | FY 2027 | | | | | | | |
| | <u>Actual</u> | <u>Proposed</u> | <u>Proposed</u> | | | | | | | |
| Bell UH-1H | \$1,860 | \$1,916 | \$1,916 | | | | | | | |
| Bell Jet Ranger | \$525 | \$541 | \$541 | | | | | | | |
| Cessna 180 Series | \$210 | \$216 | \$216 | | | | | | | |

This program is funded with an internal service fund, which is a type of proprietary fund. As such, the legislature approves the maximum rate the program may charge during the biennium. They are not the rates the program must charge.

Changes in Level of Fees and Charges

Proposed increases in aircraft flight time rates are shown in the table above. Increases are based on anticipated 3% inflation in the cost of aircraft parts and fuel prices. Fuel prices have increased considerably in recent years and continue to experience volatility.

Projected Fund Balance, Including Cash Fluctuations

The projected fund balance for the program is anticipated to decrease gradually over the next three fiscal years. Revenue estimates are typically conservative, as the length and severity of fire season is difficult to predict. Program operating expenditures would be expected to be lower than projected levels if revenue is received as estimated, indicating fewer hours of flight time billed and aircraft maintenance needs not requiring expenditure of the full appropriation in the proprietary fund.

Working Capital and Fees Commensurate Analysis

Working capital is estimated to be less than the 60 days of cash required to fund operations by approximately \$259,695 in FY 2025, \$368,142 in FY 2026, and \$445,244 in FY 2027.

FY 2024 Budget Compared to FY 2024 Actual Expenditures

The department expended 85.7% of the proprietary funding budgeted for fiscal year FY 2024, leaving \$546,200 unexpended. Personal services was over expended by \$40,700, operations and equipment combined had \$586,900 unexpended.

FY 2024 Budget Compared to FY 2025 Appropriations

The budget for FY 2025 increased by 4.7% compared to FY 2024. Personal services increased by 4.8%, all other categories increased by 4.2%.

Present Law Adjustments

The "Present Law" Adjustments table shows the changes from the base appropriation to the proposed budget. "Statewide Present Law" adjustments (DP 1, DP 2, DP 3) are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies.

| | | | Fiscal 2026 | | Fiscal 2027 | | | | | | |
|---|-------|-----------------|------------------|--------------------|----------------|------|-----------------|------------------|--------------------|----------------|--|
| | РВ | General Fund | State Special | Federal Special | Total Funds | PB | General Fund | State Special | Federal Special | Total Funds | |

| | 0.00 | 0 | 0 | 0 | (23) | 0.00 | 0 | 0 | 0 | (16 | |
| Grand Total All Present Law Adjustments | | | | | | | | | | | |
| | 0.00 | \$0 | \$0 | \$0 | \$187,260 | 0.00 | \$0 | \$0 | \$0 | \$194,882 | |

^{*&}quot;Total Funds" amount includes funding from sources other than General Fund, State Special, or Federal Special (i.e. Proprietary).

The decision packages presented are for informational purposes only, offering insights into anticipated changes in expenditure that may affect the rates charged. These decision packages are not approved by the legislature. For internal service funds, the legislature approves the maximum rate that may be charged. For enterprise funds, the legislature reviews the rate and identifies any concerns.

DP 1 - Personal Services -

The executive proposes adjustments to the present law personal services budget. This request has been broken into the following categories, and further detail is shown in the agency summary:

- · Legislatively approved changes
- · Management decisions
- · Budget modifications made to the personal services budget in the 2025 biennium

DP 2 - Fixed Costs -

The executive proposes adjustments to provide the funding required in the proposed budget to pay increases in fixed costs assessed by other agencies within state government for the services they provide. Examples include: audit fees, Capitol complex rent, information technology services, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 3 - Inflation Deflation -

The executive proposes adjustments to reflect budgetary changes generated from the application of inflation and deflation factors to specific expenditure accounts. Affected accounts include in-state state motor pool and motor pool leased vehicles.

Agency Description

The Montana Department of Agriculture, established by the state constitution, promotes and supports agriculture through public-private partnerships, regulatory oversight, and various programs. It collects statistics, supports farmers' organizations, sets product standards, develops marketing systems, and enforces agricultural laws. The department is organized into three divisions: Agricultural Development, Agricultural Sciences, and Central Services.

FY 2024 Appropriations Compared to FY 2024 expenditures.

The FY 2024 expenditure was unexpended.

FY 2024 Appropriations Compared to FY 2025 Appropriations

Non-budgeted proprietary funds increase slightly between FY 2025 and FY 2024.

Fund 06016

Revenues

The fund receives interest earned on the fund balance.

Expenditures

There have been no expenditures from the fund previous 12 years. The table below summarizes the ending fund balance for FY 2014 through FY 2024.
