Elected Official Requests

Implementation of Revised Mathematics Content Standards

OPI requests $3,000,000 in FY 2026 for content creation or HQIM procurement, professional development for middle school and high school teachers, and learning materials for data science or trades based math programs and $2,000,000 in FY 2027 for professional development for middle school and high school teachers, and learning materials for data science or trades based math programs

FTE

OPI requests funding for 5 general fund FTE in the amount of $630,000 in FY 2026 and $648,000 in FY 2027 to restore the OPI workforce and provide customer service and support to districts and families.

Change No: 610

ACT Testing for 11th grade students in public and accredited high schools. This is to replace expired federal funding through OCHE. This was originally only asked for in the 2nd year of the biennium as one time only funding. OPI has determined a need to extend the funding request for both years of the biennium and propose the funding be restricted to student testing. OPI is requesting $640,000 in FY 2026 and $700,000 in FY 2027.

Change No: 616

The amount of authority currently in the Governor's budget for the Teacher's Licensure System is $386,374. The projected revenues from teacher licensure fees is $436,095 annually. OPI is requesting $49,000 in additional authority to allow the agency to utilize the teacher's licensure revenue.
