Montana State Legislature

Subject: Testimonial in Support of Lavina Public Schools for Montana Historical District Grant

Dear Esteemed Members of the Montana State Legislature,

I am writing on behalf of Lavina Public Schools and the greater Lavina community to express our strong support for the allocation of funding to our school district through the Montana Historical District Grant. This funding is critical to preserving the unique historical identity of our community while simultaneously enhancing educational opportunities for our students.

Lavina Public Schools is deeply intertwined with our town's history, serving as both a place of learning and a symbol of our heritage. The preservation and improvement of this historic site are essential to fostering pride and a sense of belonging among our students. By maintaining and enhancing our historic school buildings, we create an environment where young minds can thrive and connect with the rich history of Montana.

Additionally, this grant would allow us to invest in improving the facilities in ways that honor the past while preparing our students for the future. Improved classrooms, updated resources, and safe learning environments are crucial to ensuring that every child in Lavina has access to a quality education. Supporting this initiative will not only benefit our students but will also strengthen the community as a whole, as our school is a gathering place for residents and a cornerstone of our identity.

Investing in Lavina Public Schools through the Montana Historical District Grant is not just about preserving history—it is about building a legacy. It is an opportunity to show our students that their education matters, their history matters, and their community matters.

I respectfully urge you to prioritize funding for Lavina Public Schools through this important program. Thank you for your dedication to the people of Montana and your commitment to supporting education and historical preservation.

Sincerely,
Daniel Peters
School Board Trustee, Lavina Public Schools
