Director AMY CARLSON

DATE: September 24, 2015

TO: Legislative Finance Committee

FROM: Greg DeWitt

RE: Required Reports

The purpose of this memo is to provide a quick overview of required reports, including:

- o Issues or concerns identified by staff (such as a significant change in the use of an appropriation)
- Other highlights, such as an area of legislative discussion, particular concern of one or more LFC members during the session, etc.

As the interim progresses, these memos will be presented at each meeting. Individual committee members will likely have other items of interest or concern that will also be discussed.

OPERATING PLANS AND PROGRAM TRANSFERS

The Governor's Office submitted three house adjustments, three house corrections, one program transfer, and one agency transfer for committee review prior to approval. The executive has approved eleven program transfers, nine house corrections, and seven operating plan changes that were time sensitive. Staff has reviewed budget changes exceeding \$75,000 and 25% of a budget category, or \$1.0 million, and did not note any legal issues. Two letters with attachments from the Governor's budget office are attached that show more details of these changes.

BUDGET AMENDMENTS

As of September 16, 2015, the Legislative Finance Division received notification of 62 budget amendments certified by the Governor since the June 2015 LFC meeting totaling \$1.6 million in FY 2015, \$12.1 million in FY 2016, and \$0.2 million in FY 2017. No issues were raised by staff. A report by Kris Wilkinson provides more details on budget amendments including a complete listing of those certified since the last committee meeting. This report may show different amounts due to inclusion of budget amendments certified between September 16 and the committee meeting.

REPORTS ON EXTENDED ENCUMBRANCES

Encumbrances are a means of establishing appropriations for expenditures that are obligated but not yet paid at fiscal yearend. For example, if the agency has entered into a purchase agreement for equipment in FY 2015 but the bill is not received until FY 2016, the FY 2015 appropriation can be used even though the department doesn't pay the obligation until after FY 2015 has ended. Another example is estimated Medicaid payments for a given year. The department must use FY 2015 funds for a service provided in FY 2015, even though the actual claim may not be received until months or even years later.

The Department of Administration will extend an encumbrance when the time during which the encumbrance can be expended is longer than originally determined. For example, if an agency enters into a contract to write software, the encumbrance for the contract can be extended as long as the contractor is still writing the software.

At the end of fiscal year 2015 the Department of Administration extended \$3.3 million in general fund encumbrances from previous years. The extensions were mainly in two departments, Department of Environmental Quality and Public Health and Human Services (DPHHS) and comprise 84.3% of all encumbrance extensions. The extensions in the Department of Environmental Quality total just less than \$0.5 million and are for the vendor contracts. The majority of the funding for DPHHS is encumbered for system development and other information technology needs including \$1,647,022 for the Medicaid Management Information System (MMIS).

At the end of fiscal year 2015, the Department of Administration extended \$3.4 million in non-general fund encumbrances from previous years. Of these, 68% were in the Department of Commerce and associated with grant funding.

The general fund and non-general fund encumbrance extension reports are available on the committee's Internet page.

LOANS AND LOAN EXTENSIONS

Short term loans from the general fund to the either state or federal accounting entities for two years in a row totaled \$125.6 million. Two amounts and agencies stand out in the report and together make up 62% of the total:

- o Department of Transportation \$56.6 million for federal funding of the highway trust
- Department of Public Health and Human Services \$21.6 million for Medicaid federal medical assistance percentages (FMAP)

The university system had \$17.1 million in extensions, primarily due to the timing of grants and contracts reimbursements. The university system and Department of Administration inter-entity loan reports are available on the committee's Internet page.

PARENTS OF SCHOLARS

SB 385 of the 2011 Legislature created the Parents of Scholars program and allows Temporary Assistance for Needy Families (TANF) cash recipients to attend approved vocational/educational programs. In FY 2015, 41 recipients benefitted from the program. The annual report required in the legislation is available on the committee's Internet page

CASH BALANCES IN EXCESS OF STATUTORY LIMIT

Statute requires that OBPP report on any fund that has a fund balance that is in excess of statutory limitation of greater than twice the annual appropriation or of the biennial appropriation, and why the excess exists or existed. OBPP reports that 20 funds were in excess of the statutory limit. This report is available on the committee's Internet page.

PUBLIC SERVICE ANNOUNCEMENTS

Statute requires that OBPP report on expenditures made by state agencies related to production and distribution of public service announcements (PSAs). In the last year, state agencies expended \$2.2 million on public service announcements. Two agencies accounted for nearly 89% of these expenditures. The Department of Public Health and Human Services expended \$1.3 million on PSAs with the largest amount for tobacco use prevention. The Department of Transportation expended \$0.6 million on PSAs mostly for highway safety announcements. This report is available on the committee's Internet page.

Subject: LFC Review & Comment on Operating Budget Changes and Program Transfers –

Additional BCDs received after September 14 memo

This memo supplements the memo previously sent on September 14, 2015. In accordance with 17-7-138 and -139, MCA, the Governor's Office of Budget and Program Planning is submitting two House Correction (HC) changes that exceed \$75,000 and 25% of a budget category or \$1 million for review and comment at the September Legislative Finance Committee meeting.

We have reviewed the requests and find them to be in compliance with state and federal laws and policies. Your staff has also reviewed these documents and has no issues with these transactions. Please let us know if you have questions or wish additional information.

Subject: LFC Review & Comment on Operating Budget Changes and Program Transfers –

Additional BCDs

In accordance with 17-7-138 and -139, MCA, the Governor's Office of Budget and Program Planning is submitting three House Adjustment (HA) changes, two House Correction (HC) changes, one Program Transfer (PT) change and one Agency Transfer (AT) change that exceed \$75,000 and 25% of a budget category or \$1 million for review and comment at the September Legislative Finance Committee meeting.

In addition, this office has processed 11 PT's, nine HC's, and seven OP's that exceeded \$75,000 and 25% of a budget category or \$1 million as time sensitive.

We have reviewed the requests and find them to be in compliance with state and federal laws and policies. Your staff has also reviewed these documents and has no issues with these transactions. Please let us know if you have questions or wish additional information.

| Agency # | Agency Name | <u>Doc #</u> | Brief Explanation | Fiscal Year |
| Documents | Processed as Time Sensitive | | | |
| Time Sensitive | | | | |
| 69010 | Public Health & Human Services | PT 483 | This request is a transferring of Medicaid authority within the same account level. The change is necessary to provide Prog 11, HRD to meet Medicaid expenditures. Prog 22 FY2015 Medicaid expenditures have grown at a pace slower than originally anticipated and Prog 11 Medicaid expenditures have grown at a faster pace than originally anticipated. | 201! |
| 69010 | Public Health & Human Services | PT 514 | AMDD is requesting additional general fund authority for the Montana State Hospital to cover projected deficits in personal services and operating costs in SFY2015. The census has been over licensed capacity continually which is driving up costs at the facility. Higher acuity of patients is requiring 1:1 staff coverage resulting in an additional 40 shifts each day. Position vacancies have also dropped from an average of 25 vacancies to 12. Additional housekeeping, dietary, and teamster staff were also needed to help with the higher patient population. The staffing demanded by higher patient acuity and increased population results in increased aggregate and overtime costs. The HCSD has remaining authority in administrative funding as a result of enhanced federal match rates, and in TANF MOE and Child Care Matching funds. | |
| 64010 | Dept of Corrections | OP 151 | During FY15, Montana Women's Prison (MWP) had 2.5 unfunded modified FTE, which has contributed approximately \$208,000 to the projected personal services deficit of \$368,000 at the facility. The FY15 overtime budget for Program 6 was \$188,000; projected overtime expenditures exceed this budget by \$85,000. Additionally, the raises granted to Program 6 staff have increased the anticipated FY15 expenditures. Due to unfunded modified FTE, increased overtime costs and pay increases in FY15, Program 6 anticipates having a \$1,400,000.00 deficit in personal services. This BCD will move \$1,400,000.00 from 62000 703H2 into 61000 703H2 to cover this anticipated deficit. | 201: |

| | | } | budgeting process out to the intended areas. | |
| | |] | | 2016/2017 |
| 41070 | Crime Control Division | HA 021 | Budget change is needed to move authority from grants to transfers. MBCC had a large | |
| | | } | award in National Criminal History Improvement Program (NCHIP) for the MT Supreme Court | :{ |
| | | | & one NCHIP award for Dept. of Corrections and Dept. of Justice. The significant budget | |
| | | } | change is needed to move authority from grants to transfers to fund 2 National Criminal | |
| | | } | History Improvement Program (NCHIP) awards. One going to Supreme Court and the other | |
| | | | will go to Dept of Corrections & Dept of Justice. Personnel is adjusted to add a .5 modified | } |
| | | | FTE to manage a \$6.5 million VOCA grant increase (from \$1.7 mil) & two retirements plus an | } |
| | | } | increase in the Statistical Analysis Center. Operating is adjusted to manage the increased | } |
| | | } | VOCA & SAC awards. | |
| | | } | | 2016 |

| Agency # | Agency Name | Doc# | Brief Explanation | Fiscal Year |
|----------|------------------------|--------|---|-------------|
| 41070 | Crime Control Division | HA 022 | FY17-The significant change is needed to increase personnel and operating authority to | |
| 1 | | } | administer increased award amounts. VOCA (Victims of Crime) & SAC (Statistical Analysis | |
| | | } | Center) increased from \$1.9 mil to \$6.5 mil & \$50K to \$272,029 per year. Significant change | |
| | | } | to personnel for a modified .5 FTE to help administer the increase in VOCA and to fully fund | |
| | | } | personnel. Moving authority from grants to transfers due to large awards to state agencies. | |
| | | } | Operating to administer the increased SAC & VOCA awards. The majority of SAC is | |
| | | } | contracted to the universities for research. Authority is also being adjusted between federal | |
| | | { | funds to reflect the actual award amounts. | 2017 |
