

A BILL FOR AN ACT ENTITLED: "AN ACT AMENDING CHAPTER 23, SPECIAL LAWS OF AUGUST 2002, FOR THE SOLE PURPOSE OF INSERTING AN IMMEDIATE EFFECTIVE DATE; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

**Section 1.** Chapter 23, Special Laws of August 2002, is amended to read:

"**Section 1.** Chapter 572, Laws of 2001, is amended to read:

"**Section 1. Short title.** [This act] may be cited as "The General Appropriations Act of 2001".

**Section 2. First level expenditures.** The agency and program appropriation tables in the legislative fiscal analyst narrative accompanying Chapter 572, Laws of 2001, showing first level expenditures and changes in [this act] to funding for the 2003 biennium, are adopted as legislative intent.

**Section 3. Severability.** If any section, subsection, sentence, clause, or phrase of [this act] is for any reason held unconstitutional, the decision does not affect the validity of the remaining portions of [this act].

**Section 4. Appropriation control.** An appropriation item designated as "Biennial" may be spent in either year of the biennium. An appropriation item designated "Restricted" may be used during the biennium only for the purpose designated by its title and as presented to the legislature. An appropriation item designated "One Time Only" or "OTO" may not be included in the present law base for the 2005 biennium. The office of budget and program planning shall establish a separate appropriation on the statewide budgeting and accounting system for any item designated as "Biennial", "Restricted", "One Time Only", or "OTO". The office of budget and program planning shall establish at least one appropriation on the statewide budgeting and accounting system for any appropriation that appears as a separate line item in [this act].

**Section 5. Program definition.** As used in [this act], "program" has the same meaning as defined in 17-7-102, is consistent with the management and accountability structure established on the statewide budgeting and accounting system, and is identified as a major subdivision of an agency ordinarily numbered with an arabic numeral.

**Section 6. Personal services funding -- 2005 biennium.** (1) Except as provided in subsection (2), present law and new proposal funding budget requests for the 2005 biennium

submitted under Title 17, chapter 7, part 1, by each executive, judicial, and legislative branch agency must include funding of first level personal services separate from funding of other expenditures. The funding of first level personal services by accounting entity or equivalent for each fiscal year must be shown at the fourth reporting level or equivalent in the budget request for the 2005 biennium submitted by October 30 to the legislative fiscal analyst by the office of budget and program planning.

(2) The provisions of subsection (1) do not apply to the Montana university system.

**Section 7. Personal services line item.** Funds appropriated for personal services or indicated in legislative intent as having been appropriated for personal services may not be expended under any other category except for contract services (expenditure account 62102) or for the early return to work program. Any transfer of funds from personal services to contract services is to be used to directly substitute for use of personal services. Any transfer for either contract services or for the early return to work program must be reported in writing to the legislative finance committee. The provisions of this section do not apply to the Montana university system or to the disability services division in the department of public health and human services for the purposes of adjusting the disabled population between institution and residential settings.

**Section 8. Vacancy savings analysis.** The legislature is concerned about the use of the concept of vacancy savings in establishing funding for personal services. It is the intent of the legislature that an analysis of vacancy savings be completed prior to the 2003 legislative session to include the consideration of alternative options for funding of personal services at an appropriate level. The legislative finance committee is requested to include this analysis as part of the House Bill No. 613 personal services study if House Bill No. 613 is passed and approved or to include the analysis in the committee work plan for the legislative fiscal division. The legislative finance committee is encouraged to work cooperatively with the governor's budget director in completing this analysis.

**Section 9. FTE reduction.** The number of FTE has been reduced for all positions in the executive branch (excluding the university system) that have been identified by the legislature as vacant for over 7 months and that are not seasonal, already filled, or newly classified . The reduction is inclusive in the number of FTE shown in the agency and program tables in the legislative fiscal analyst narrative accompanying this bill. The eliminated positions are not to be funded in the present law base budget submitted by the governor for the 2005 biennium. The Legislative Fiscal Division Fiscal Report shall include a table listing the position numbers of the FTE that are eliminated. The number of FTE eliminated by agency is as follows:

Department of Transportation	49.27
Department of Revenue	2.03
Department of Administration	4.84
Department of Public Health and Human Services	9.26
Department of Fish, Wildlife, and Parks	5.02

**Section 10. Goals, benchmarks, and objectives.** Each department, the Montana university system, and, when appropriate, each division of each department shall place their respective specific and measurable goals, benchmarks, and objectives for each year of the 2003 biennium on their respective internet websites or, when appropriate, on the state's internet website. On July 1, 2001, and again on July 1, 2002, each department and the Montana university system shall report progress on the appropriate website in meeting the goals, benchmarks, and objectives and what changes, if any, were made to ensure that those goals, benchmarks, and objectives are attained. On October 1, 2002, each department and the Montana university system shall report to the legislative finance committee and on their respective websites their revised goals, benchmarks, and objectives to reflect specific actions taken and changes made to implement the reductions in expenditures ordered by the governor under the authority of 17-7-140 on June 28, 2002, and all budget reduction actions taken by the legislature in the August 2002 Special Session. Revised performance measures must:

- (1) include a specific list of what programs, services, or procedures are being revised, reduced, or eliminated from current levels of operation because of budget reductions and the reasons for the change;
- (2) clearly state which programs or services are the highest priority and should be maintained and why they are the highest priority;
- (3) clearly state which programs or services are the least critical and why they are a lower priority;
- (4) clearly state the criteria used to prioritize programs in view of budget reductions; and
- (5) clearly state the specific management actions taken to implement these budget reductions and program or service revisions.

**Section 11. Report from governor's office on energy management efforts.** The governor's office, in cooperation with the commissioner of higher education, shall provide a report to the 58th legislature that details the efforts of state agencies to address energy costs. The report must include but is not limited to energy management activities of the department of environmental quality, the department of administration, and the Montana university system. The report should enumerate data, activities, and recommendations in the following areas:

- (1) projected savings and other benefits from the state building energy conservation program, including building commissioning projects;
- (2) potential changes to the conservation program that would encourage agency participation;
- (3) other energy conservation efforts of state agencies;
- (4) changes needed to encourage state agencies to conserve energy that do not require expending money on energy conservation projects;
- (5) other energy conservation options and funding proposals;

(6) progress on the utility bill monitoring pilot project and potential benefits coming from the project;

(7) state government efforts to more efficiently purchase natural gas and electricity, including any plans to include more state facilities under the natural gas term contract and efforts to aggregate state agency electricity demand; and

(8) other recommendations to the legislature that would improve state government energy management efforts.

**Section 12. Accruals analysis -- 2005 biennium.** The legislative fiscal division shall include an analysis of accruals for budget base year fiscal year 2002 and shall include a summary table and narrative in the Legislative Fiscal Division 2005 Biennium Budget Analysis that provides a listing by agency of total accruals and the amount that is recommended to be removed from the base budget.

**Section 13. Energy costs reserve.** A total of \$3.2 million must be set aside in the general fund for contingencies related to cost increases in electricity and natural gas expenditures by state government significantly above the amounts appropriated for this purpose in [this act] or to support litigation to secure affordable electricity or natural gas. The amount is classified as unreserved, designated general fund balance.

**Section 14. Totals not appropriations.** The totals shown in [this act] are for informational purposes only and are not appropriations.

**Section 15. Effective date.** [This act] is effective July 1, 2001.

**Section 16. Appropriations.** The following money is appropriated for the respective fiscal years:

General fund money up to \$51,000 for the 2003 biennium in item 1b not used for the extradition and transportation of prisoners may be used to purchase vans for county sheriffs and peace officers to transport prisoners.

The legislature recognizes that the cost for extradition and transportation of prisoners is dependent upon factors beyond the control of the agency and may exceed the appropriation provided. In that event, the agency will need to request a supplemental appropriation from the 2003 legislature to provide required extradition and transportation of prisoners.

Item 1 includes a reduction in fiscal year 2003 of \$19,955 in general fund money and represents the equivalent of 25% of office supplies expenditures funded with general fund money

in fiscal year 2002. The governor's office may reallocate this reduction in funding among programs when developing fiscal year 2003 operating plans.

Item 1 includes a reduction of \$42,777 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 1% reduction in the fiscal year 2003 budget for the governor's office. The governor's office may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 1b and the accompanying language are contingent upon passage and approval of Senate Bill No. 328.

If Senate Bill No. 445 is not passed and approved, the appropriation in item 1e is void and the appropriation in item 4c is increased by \$1,700,000 in general fund money in fiscal year 2002.

Item 4c is a contingency biennial account to be managed by the office of budget and program planning to respond to contingencies related to cost increases in electricity and natural gas expenditures by state government significantly above the amounts appropriated in [this act]. Requests for use of this account must be analyzed by the office of budget and program planning and approved by the governor. Distribution of this money to state agencies must be proportional to the overall needs of state agencies relative to the total funds available. Approved expenditures must be reported to the legislative finance committee.

Item 5a is contingent upon passage and approval of House Bill No. 21. Funds in item 5a for the 2003 biennium are limited to the unspent balance of the 2001 appropriation of up to \$150,000 in state special revenue and \$2 million in federal special revenue.

The department shall provide the following information by program to the children, families, health, and human services interim committee and to the legislative finance committee by August 1, 2002:

- (1) rates paid by each program for comparable services; and
- (2) entry level and average hourly wage and benefit rates paid by community providers for direct care workers and group home employees.

The information must specify how the data was gathered and whether and how the department verified the data and must be presented to allow evaluation among comparable services and jobs.

The department shall report to the legislative finance committee and the children, families, health, and human services interim committee at every meeting of each committee:

- (1) the actual amount of federal temporary assistance for needy families (TANF) block grant funds expended in the current biennium;
- (2) the actual amount of TANF block grant maintenance of effort funds that have been expended in the current biennium;
- (3) the balance of previous fiscal years' TANF block grant funds that remain unexpended; and
- (4) the balance of the current fiscal year federal TANF block grant funds that remain unexpended.

The department shall use unexpended previous year federal TANF block grant funds to provide benefits and services that meet the federal definition of assistance. Current year federal TANF block grant funds must be used to fund benefits and services that meet the federal definition of assistance only after all available previous years' federal TANF block grant funds have been expended.

The office of budget and program planning may proportionally reduce the funding in items 1a through 1k, items 1m through 1t, and item 1v if any of the following conditions exist:

- (1) the department certifies to the office of budget and program planning that the balance of unexpended TANF funds on June 30, 2001, is less than \$30 million;
- (2) actual or projected cash assistance expenditures are greater than \$24,067,328 in fiscal year 2002 or \$23,763,854 in fiscal year 2003;
- (3) the amount of TANF grant funds awarded to Montana by congress is reduced below the level anticipated by the legislature; or
- (4) the department certifies to the office of budget and program planning that the reduction is necessary in order to maintain public assistance programs that were supported by federal TANF and state TANF maintenance of effort funds in fiscal year 2001.

If the TANF block grant funds report given at the March 2002 legislative finance committee meeting indicates that there are FAIM phase II R dollars unexpended and no plan is in place to expend the remaining dollars, there is appropriated up to \$1.5 million of these unexpended funds for the summer youth employment program in the 2003 biennium.

Item 1 includes increases of \$3,852,988 of general fund money in fiscal year 2002 and of \$4,006,121 of general fund money in fiscal year 2003 and reductions of \$3,356,606 of state special revenue in fiscal year 2002 and of \$3,376,187 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Funds in item 1 include \$68,422 in fiscal year 2002 and \$69,606 in fiscal year 2003 that the department shall use to reimburse the Montana department of corrections, Montana correctional enterprises, for costs incurred to operate the Montana food bank network canning and wild game processing facility.

Funds included in items 1b and 1e may be used only to fund tribal projects and to provide nontraditional job training to an enrolled tribal member of a federally recognized tribe whose reservation lies within the exterior boundaries of the Montana reservations and to the Little Shell band of Chippewa if the Little Shell band of Chippewa becomes a federally recognized tribe.

Funds in item 1b may be used to fund head start services for tribal members. Tribal members may not access services supported by funds in item 1r because funding for tribal head start projects has been included in item 1b.

The department shall transfer funds in item 1l to the Montana board of housing revolving loan account to fund eligible activities under the federal TANF block grant. The timing and amount of the transfer must comply with federal regulations governing the expenditure and transfer of TANF funds.

Funds included in item 1t may be used only to develop programs for high-wage and high-skill training for single parents, persons who are economically disadvantaged, and displaced homemakers.

Funds included in item 1u may be used only to provide adult basic education services.

The department shall transfer funds in item 1v to the children's trust fund to fund eligible child abuse and neglect prevention activities.

Projects funded in items 1a, 1d, 1f, 1g, 1h, 1i, 1j, 1k, 1l, 1m, 1n, 1o, 1p, 1q, 1r, 1s, 1t, and 1u are considered approved special projects related to welfare reform for the purpose of implementation of 53-4-210. Prior to the expenditure of these funds, the department shall provide notice both verbally and in writing to tribes that have implemented a federally approved tribal family assistance plan that funding for special projects is available. Tribes that operate a tribal family assistance plan may receive the funds in these items, and the department may award all or a portion of these funds to tribes that operate tribal family assistance plans as allowable within federal regulations.

Funds included in item 1w may be used only to provide TANF WoRC contracts and supportive services and child-care services.

Item 2 includes increases of \$2,206,194 of general fund money in fiscal year 2002 and of \$2,241,893 of general fund money in fiscal year 2003 and reductions of \$2,172,078 of state special revenue in fiscal year 2002 and of \$2,135,314 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Funds in item 2d may be used only to support the costs of in-home services for families in the child welfare system. The department estimates that 25 families or 50 children will be served with this funding and that 80% of the families served will not enter the foster care system. If the department achieves this goal, the estimated increase in the foster care caseload will decrease from 3% to 2%. Any savings realized because of a lower than anticipated caseload increase may be used by the department to expand the provision of in-home services or other services within the child welfare system.

Item 3 includes \$1,482,291 in fiscal year 2002 and \$1,482,748 in fiscal year 2003 for the tobacco prevention and control program. It is the intent of the legislature that the interagency coordinating council on prevention administer the tobacco control and prevention program.

Item 3 includes increases of \$93,333 of general fund money in fiscal year 2002 and of \$96,915 of general fund money in fiscal year 2003 and reductions of \$90,463 of state special

revenue in fiscal year 2002 and of \$91,028 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 3 includes funding for 5 FTE above the level funded by the 2001 legislature for the purpose of establishing a departmentwide refinancing unit. The cost of the FTE and any supporting contracting efforts must be supported from anticipated savings from the refinancing of social worker case management services and maximizing of federal funding in the child and family services division. The department shall report on the progress of its refinancing efforts periodically to the office of budget and program planning, legislative finance committee, and the 2003 legislature.

It is the intent of the legislature that up to \$3 million of funds that the department receives because of refinancing general fund costs with federal special revenue be used to offset the across-the-board general fund reductions included in item 7.

Funds in item 3a may be used only to fund a deputy director position within the department.

Funds included in item 4c may be used only to support costs for the completion of a financial institution data match.

Funds included in item 4d may be used only to support the costs incurred to complete a study of the costs of raising a child in Montana.

Items 5, 9, and 10 include appropriations of state special revenue for provider rate increases funded from the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution. If the interest income on the tobacco settlement trust fund provided for in Article XII, section 4, of the Montana constitution is insufficient to fully fund the state special revenue appropriations in items 5, 9, and 10, the legislature intends that the department find alternative funding sources to fully fund the provider rate increases. Alternative sources may include but are not limited to enhanced medicaid intergovernmental transfer programs and transfers of general fund money from other appropriations.

Item 5 includes increases of \$6,717,000 of general fund money in fiscal year 2002 and of \$6,862,000 of general fund money in fiscal year 2003 and reductions of \$6,717,000 of state special revenue in fiscal year 2002 and of \$6,862,000 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

The health policy and services division is authorized to pursue up to \$1.5 million in federal special revenue each year of the biennium in item 5 to enhance or improve division services or programs to public schools. This additional federal special revenue may be expended on services by the division as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated by the legislature to the division.

Item 5a must be spent on services to assist Montanans who have been exposed to asbestos. Funds in item 5a may not be expended for any other purpose.

Implementation of the resource-based relative value scale (RBRVS) provider rate system must continue to be phased in over the 2003 biennium. The department shall use funds in item 5b to raise rates paid to those current procedural terminology (CPT) codes paid the lowest percentage of medicare reimbursement that were restricted to 145% of the level of the state fiscal year 1997 reimbursement in state fiscal year 1999. The department may not change reimbursement for CPT codes, which were paid at 80% of the level of the state fiscal year 1997 reimbursement in state fiscal year 1999.

Item 5c includes funds for 3.5 FTE. Funds for the FTE may not be included in the adjusted base budget for the 2005 biennium unless federal funds or private revenue is available to fund the position.

Funds in item 5d may be used only to purchase equipment to transmit or to facilitate the transmission of medical images and x-rays from rural hospitals to medical specialists. The funds may be granted only to rural hospitals or groups of rural hospitals to purchase the equipment.

The department shall provide to the legislative finance committee each year of the biennium an analysis of the number of medicaid hospital projects completed and associated cost savings because of funding for claims adjudication specialists as approved by the 2001 legislature.

Item 6 includes increases of \$211,082 of general fund money in fiscal year 2002 and of \$218,916 of general fund money in fiscal year 2003 and reductions of \$204,359 of state special revenue in fiscal year 2002 and of \$205,400 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 7 includes increases of \$1,044,768 of general fund money in fiscal year 2002 and of \$1,070,319 of general fund money in fiscal year 2003 and reductions of \$1,037,443 of state special revenue in fiscal year 2002 and of \$1,055,626 of state special revenue in fiscal year 2003 that are contingent upon passage and approval of House Bill No. 124.

Item 7 includes a reduction in general fund money of \$158,038 in fiscal year 2002 and \$158,038 in fiscal year 2003. This reduction is the equivalent of a 15% reduction in fiscal 2000 base budget travel expenses. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans.

Item 7 includes a reduction in fiscal year 2003 of \$107,795 in general fund money and represents the equivalent of 25% of office supplies expenditures funded with general fund money in fiscal year 2002. The department may reallocate this reduction in funding among programs when developing fiscal year 2003 operating plans.

Item 7 includes a reduction of \$257,261 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 66.67% reduction in the fiscal year 2003 budget for equipment expenses. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 7 includes a reduction of \$1.45 million of general fund money in fiscal year 2003. This reduction is the equivalent of a 0.53% reduction in the fiscal year 2003 general fund appropriation for the agency. The agency may reallocate this reduction in funding among programs in its fiscal year 2003 operating plans.

Item 7 includes a reduction of \$542,660 in fiscal year 2002 and \$544,550 in fiscal year 2003 of general fund money. The department may reallocate this reduction in funding among divisions when developing 2003 biennium operating plans. The office of budget and program planning shall provide a report that details reallocation to the legislative finance committee by October 15 of each fiscal year.

The department shall make every effort to achieve an unqualified opinion in the financial compliance audit issued by the legislative audit division for the 2 years ending June 30, 2003. The legislature expects the department to take action to ensure that this achievement occurs, including exempting the fiscal bureau from vacancy savings requirements, exempting the fiscal bureau from reductions in staffing, establishing clear and appropriate fiscal policies and processes, and any other management actions that may reasonably be expected to result in the

The developmental disability program is directed to use existing general fund appropriations within the developmental disabilities program budget to refinance services, if possible.

General fund money made available through refinancing efforts may be used to:

- (1) reduce the developmental disability program waiting list;
- (2) improve wages paid by community providers to direct care workers;
- (3) provide a provider rate increase to community services providers; and
- (4) fund existing plans of care for individuals waiting for residential services.

The developmental disabilities program will report to the legislative fiscal division semiannually in January and July:

- (1) the amount of general fund money that was made available through refinancing efforts;
- (2) the amount, scope, and nature of services provided by funds made available through refinancing;
- (3) the number of consumers, providers, and direct care worker staff benefiting from initiatives funded through refinancing efforts; and
- (4) the amount of additional state special and federal funds obtained through refinancing efforts.

Item 8 includes a \$1,965,199 general fund decrease in fiscal year 2003 for the disability services division replaced by a like amount of employment security account state special revenue funds administered by the department of labor and industry.

Item 8c includes \$3,996,613 in general fund money and \$3,861,209 in federal funds to begin equalization of wages paid to direct care workers employed by developmental disability community providers with direct care worker wages paid to employees at Eastmont human services center and the Montana developmental center.

The disability services division shall complete a report on the impact that applying income criteria to determine eligibility for developmental disabilities program services and benefits would have on individuals, the waiting list for services, and the budget for the developmental disabilities program. The report must be presented to the legislative finance committee by June 30, 2002. The report to the legislative finance committee should include by age group (0-3, 4-5, 6-18, 18-21, and over 21 years of age) and by residential setting (recipient home, group home, institution, etc.):

- (1) the number of nonmedicaid-eligible recipients and the value of services, by funding source, provided to individuals and families with income at or below 200% of the federal poverty level; and
- (2) the number of nonmedicaid-eligible recipients and the value of services, by funding source, provided to individuals and families with income at or below 150% of the federal poverty level.

The fiscal year 2003 funds in items 8, 8a, and 8b may not be expended until the report has been presented to the legislative finance committee.

Included in item 8b is general fund money of \$1,400,277 in fiscal year 2002 and \$1,400,224 in fiscal year 2003. This funding is one time only. The combined population at the two institutions (Eastmont human services center and Montana developmental center) may not exceed 88 individuals at the end of the 2003 biennium. If the disability services division has a population of more than 88 individuals at the two institutions at the end of the 2003 biennium, the division shall certify that a community residential setting was not available for the individuals remaining in the two institutions.

Funds in item 9a may be used only to make one-time payments to nursing homes based on the number of medicaid services provided. State special revenue in item 9a may be expended only after the office of budget and program planning has certified that the department has received \$2 million each year from counties participating in the intergovernmental transfer program for nursing homes.

The department shall distribute funds in items 8c and 9c in a way that provides reasonable assurance that the funds are used solely for direct care wage and benefit increases. Not all providers or types of direct care workers must receive the same rate increase for the biennium. Funds appropriated in items 8c and 9c may be used only for direct care worker wage increases. Funds in items 8c and 9c may not be used to fund other programs. In the event that the department finds it necessary to institute program reductions, it is the intent of the legislature that funds in items 8c and 9c be the last items eliminated.

The senior and long-term care division is authorized to pursue up to \$2 million in federal special revenue in item 9d over the biennium to enhance or improve division services or programs. This additional federal special revenue may be expended by the division on services as long as those actions do not require or commit the state to additional general fund expenditures beyond the amount appropriated for the 2003 biennium by the legislature to the division in [this act].

Pursuant to 17-7-140, item 9e is exempt from spending reductions because of a projected general fund budget deficit.

The department shall post on the senior and long-term care division website the staffing levels provided in Montana nursing facilities.

The department shall require that area agencies on aging provide a written assessment of the need for increased funding in their nutrition programs prior to expending the additional Title III of the Older Americans Act of 1965 grant funds appropriated in [this act].

The appropriation in item 10 is contingent on the department developing a management plan to:

- (1) ensure that the department staff tracking the census of residential treatment of children in Montana communicate in-state service availability to appropriate staff; and
- (2) negotiate or issue requests for proposals in compliance with 52-2-306 and 52-2-307 for placement of children with in-state providers in lieu of placing the child in out-of-state treatment. The department shall submit the plan to the children, families, health, and human services interim committee and the legislative finance committee by July 1, 2001.

Item 10 is contingent on the department maintaining \$3,539,842 of federal block grant contracts to state-approved chemical dependency programs for treatment and rehabilitation

each year of the 2003 biennium.

Item 10 includes \$559,560 in general fund money in fiscal year 2002 and \$713,907 in fiscal year 2003 that must be used to fund mental health services for persons eligible for the mental health services plan. At least \$480,000 of these general fund appropriations must be used for grants to one or more local children's mental health provider coalitions to prevent placement of emotionally disturbed children in out-of-home services.

Item 10 must be increased by \$1 million in general fund money and must be reduced by \$1 million in state special revenue in fiscal year 2003 unless Senate Bill No. 1, August 2002 Special Session, is passed and approved in a form that:

(1) maintains at least a \$1 million distribution to state-approved chemical dependency programs to provide treatment, rehabilitation, and prevention of chemical dependency pursuant to 53-24-208; and

(2) requires the department to distribute in the same proportion as provided in 53-24-206(3)(b) at least \$730,000 of the \$1 million in funds referenced in item 1 to the state-approved chemical dependency programs.

Funds in item 10a must be used to fund services at Montana state hospital and for staff and utilization review activities to reduce the use of institutional services. Any funds not spent for staff and utilization review activities must be used to fund community services, which will reduce the need for inpatient and institutional care. The funds may not be used for any other purpose.

Funds in item 10b must be used to fund mental health services for low-income children. Funds in item 10b may not be used for any other purpose or transferred to any other program.

Funds in item 10d must be used to contract with the Montana consensus council.

Funds in item 10e must be used to pay one-time increases in reimbursement for services provided in frontier counties by county-funded mental health medicaid service providers.

Item 10f includes \$25,000 in contracted services in fiscal year 2003 funded equally from state special revenue and federal special revenue.

Funds in item 10g must be used for:

(1) activities related to training and educating law enforcement personnel, judicial personnel, and persons instrumental to the commitment process in recognizing serious mental illness and appropriate approaches to and treatment for persons who exhibit symptoms of mental illness; and

(2) development of screening tools to help identify whether a person may be mentally ill.

Item 10j is contingent upon passage and approval of Senate Bill No. 26, August 2002 Special Session.

Item 10k is contingent upon passage and approval of Senate Bill No. 26, August 2002 Special Session.

The appropriations for legislative contract authority are subject to all of the following provisions:

(1) Legislative contract authority applies only to federal funds.

(2) Legislative contract authority expenditures must be reported on the state's accounting system, and the records must be separate from present law operations. In preparing the 2005 biennium budget for legislative consideration, the office of budget and program planning may not include the expenditures from this item in the present law base.

(3) A report must be submitted by the department to the legislative fiscal division following the end of each fiscal year of the biennium. The report must include a list of projects with the related amount of expenditures and FTE for each project.

The department is to report to the natural resources and commerce appropriations subcommittee on the projects funded with federal Sikes Act money and state matching money. The report is to include an analysis of the viability for continuance of the program and a list of projects funded with the money.

If the department is required to adjust personal services expenditure costs between state and federal accounts, the approving authority shall adjust the state special revenue appropriation and the federal appropriation by like amounts. All transfers between fund types must be fully explained and justified on budget documents submitted to the office of budget and program planning.

The department shall determine and quantify any efficiencies generated as a result of incorporating the Smith River drawing process into the automated license system and report its findings to the 2003 legislature.

Item 1b legislative contract authority (LCA) is subject to all LCA provisions stated in the agency's language. LCA is restricted and a one-time-only item in [this act] and must be requested as a new proposal to be continued into the 2003 biennium. LCA applies only to federal funds.

All remaining proceeds in excess of \$100 million in the resource indemnity trust fund, up to \$100,000, must be appropriated in fiscal year 2003 to the department based upon a split of two-thirds for conservation district grant projects and one-third for irrigation grants. The appropriation is contingent upon the governor's certification that the trust balance is in excess of \$100 million. If the contingency is met in fiscal year 2003, the office of budget and program planning is authorized to transfer up \$100,000 in cash from the resource indemnity trust fund to a state special revenue fund to be used for these purposes. Further, the cash for this purpose cannot be transferred until \$1 million has been transferred for a fund switch in item 3, \$300,000 has been transferred for the purpose of weed eradication, \$540,000 has been transferred for the purpose of purchasing securities for water treatment at the former Zortman and Landusky mines, and \$120,000 has been transferred for the Clark Fork River study.

Item 1 includes a reduction in fiscal year 2003 of \$28,167 in general fund money and represents the equivalent of 25% of office supplies expenditures funded with general fund money in fiscal year 2002. The department may reallocate this reduction in funding among programs when developing fiscal year 2003 operating plans.

This reduction is the equivalent of a 17% reduction in fiscal year 2000 base budget travel expenses. The agency may reallocate this reduction in funding among programs when developing 2003 biennium operating plans.

Item 1 includes a reduction of \$99,292 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 1% reduction in the fiscal year 2003 appropriation for the program.

Item 1 includes a reduction in fiscal year 2003 of \$53,930 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Item 2 includes a reduction in fiscal year 2003 of \$144,417 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

Total Summitnet costs are estimated to be \$25,000 each year for the community colleges. The general fund appropriation for the community colleges provides 53% of the total Summitnet costs. The remaining 47% of these costs must be paid from funds other than those appropriated in item 4. Summitnet costs for each year may not exceed \$8,000 each for Dawson and Miles community colleges and \$9,000 for Flathead Valley community college.

The general fund appropriation in item 4 is calculated to fund education in the community colleges for an estimated 2,030 resident FTE students in fiscal year 2002 and 2,040 resident FTE students in fiscal year 2003. If total resident FTE student enrollment in the community colleges is greater than the estimated number for the biennium, the community colleges shall serve the additional students without a state general fund contribution. If actual resident FTE student enrollment is less than the estimated number for the biennium, the commissioner of higher education shall revert \$2,792 in general fund money to the state for each estimated FTE student who did not enroll.

Item 4 includes a reduction of \$56,795 in fiscal year 2003 of general fund money. This reduction is the equivalent of a 1% reduction in the fiscal year 2003 appropriation for the program.

Item 4 includes a reduction in fiscal year 2003 of \$212,531 in general fund money and represents the reductions ordered by the governor pursuant to 17-7-140.

The remaining 47% of these costs must be paid from funds other than those appropriated in item 4a. Audit costs for the biennium may not exceed \$20,000 each for Dawson and Miles community colleges and \$24,000 for Flathead Valley community college.

Item 5 includes a reduction in fiscal year 2003 of \$4,003 in general fund money and represents the equivalent of 25% of office supplies expenditures funded with general fund money

in fiscal year 2002.

Item 7 includes a reduction of \$779,826 in fiscal year 2002 and \$782,537 in fiscal year 2003 of general fund money. The board of regents may reallocate this reduction in funding among university system units, as defined in 17-7-102(13), when developing 2003 biennium operating plans. The office of budget and program planning shall provide a report that details reallocation to the legislative finance committee by October 15 of each fiscal year.

The decision of the legislature to deny funds for initiatives or budget requests proposed by the governor and the board of regents for the 2003 biennium does not imply an intent to prohibit the board of regents from implementing those initiatives unless specifically stated otherwise in [this act].

The general fund and millage appropriation in item 7 is calculated to fund education in the 4-year units and the colleges of technology for an estimated 25,004 resident FTE students in fiscal 2002 and 25,207 resident FTE students in fiscal 2003. - (3) other revenue of \$1,013,738 each year of the 2003 biennium.

These amounts are appropriated for current unrestricted operating expenses as a biennial lump-sum appropriation and are in addition to the funds shown in item 7.

Item 7 includes \$428,660 in each year of the biennium that must be transferred to the energy conservation program account and used to retire the general obligation bonds sold to fund energy improvements through the state energy conservation program. For all university system 4-year units and colleges of technology, all funds, other than funds appropriated in House Bills No. 5 and 14 for long-range building programs, are appropriated as a lump sum for the biennium contingent upon approval of the comprehensive program budget by the board of regents by October 1 of each year. The board of regents shall allocate the appropriations to the individual units according to board policy. The budget must contain detailed revenue and expenditure and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval of the board of regents. Transfers and related justifications must be submitted to the office of budget and program planning and to the legislative fiscal analyst.

All university system units, except the office of the commissioner of higher education, shall account for expenditures consistently within programs and funds across all units and shall use the standards of accounting and reporting, as described by the national college and university business officers, as a minimum for achieving consistency.
