

2003 Committee Minutes are named by date of the hearing plus the committee code.

For example, for file 030106AGH_Hm1.pdf, the first 2 digits represents the year [2003], the next 2 digits represents the month [01; i.e., January], and the last 2 digits is the day of the month [06]. The next 3 characters represent the committee code, in this example, "AGH".

Looking at the code to committee cross-reference below, you can see BUH is the code for the House Agriculture Committee.

Minutes for Conference Committees and Free Conference Committees also include the bill number in the file name. For example, 030316SB0330CCS_Sm1.pdf is the minutes for the Conference Committee hearing on SB0330 which took place on March 16, 2003.

You may also notice most file names include either "Sm1" or "Hm1". This is simply the first set of minutes (1) for either the Senate (Sm), or the House (Hm). File names with other than a 1, means there were additional minutes for that committee on that day. See 030106APH_Hm1.pdf and 030106APH_Hm2.pdf as an example.

COMMITTEE

COMMITTEE CODE

AGH.....	(H) Agriculture
APH.....	(H) Appropriations
BUH.....	(H) Business and Labor
